CARLISLE AT OAKVIEW.

Rumors Concerning His Visit to the President.

VOL. XIX.

A QUIET TAMES REFORM TALK. Several Bills Said to Have Been Prepared for Presentation to the Next Congress -Mills on Randall.

Washington, September 2.-The Evening Star this afternoon publishes the following: Star this afternoon publishes the following:
"There will be a measure brought forward by the
tariff reformers, as soon as congress convenes, which
will likely have the ind resement of the administration. The president, secretary of the treasury, and
Speaker Carlisle have been considering the matter speaker Carlisle have been considering the matter since congress: do rned, and it is not improbable that the present visit of Speaker Carlisle to the president, at Oakview, will result in the culmination of their plan. It is possible that the speaker's visit to Washington at this time, was probably for the purpose of consulting with the president upon this subject. It is expected at the treasury department that Secretary l'airchild, who is now on his vacation will seen return to Washington. It is probable tion, will soon return to Washington. It is probable that he comes to meet the president and Mr. Car-

The result of the Allentown convention is quite satisfactory to the tariff reformers. They propose to take advantage of the situation and present a plan for a reduction of the revenues. The plan being prepared will conform strictly with the tariff resofor a reduction of the revenues. The plan being prepared will conform strictly with the tariff resolution there adopted. As it is construed by the president, it will abolish the tobacco tax, but leave the whisky tax wher; it is, and will make a large reduction in the customs duties on the necessaries of life, in accordance with the president's utterances on the subject. An internal revenue feature is admitted as a compromise and will be tolerated only in connection with a very positive reduction of customs. There will be no acknowledgement of protection. It is likely that the reduction of customs will be more sweeping than Mr. Randall would agree to, though it is noped that the whole party can be urged to work harmoniously. Congressman Scott, of Pennsylvania, was in Washington shortly before the Allentown convention, and talked the matter over with the president and Secretary Fairchild. Editor Singerly conferred with the president likewise, it will be remembered, in his yacht on the Potomac. The administration is fully committed to a strong attitude on the tariff. While there has been no general conference of a large number of men in one place, there have been important consultations between individual leaders and the president.

Mr. Mills, of Texas, who is to be chairman of the ways and means committee in the next house, is in the city and has had a conference with Mr. Carlise. The bureau of statistics has been called upon for figures on customs duties, to show just where the most effective reductions can be made, and how the revenues would be affected thereby.

Congressman Roger Q. Mills, of Texas, in an interview with a Post reporter tonight, says that he is preparing a tariff bill to be submitted to the next house. It will propose large reductions in duties on iron, steel, cotton and wool. Mr. Mills says he knows of no formal conferences going on among democrats over the tariff, but says that he believes the presi-

wool. Mr. Mills says he knows of no formal conferences going on among democrats over the tariff, but says that he believes the president and Speaker Carlisle have held conferences on the subject, as have other democrats individually. He warmly attacks protection democrats and says that the president and the speaker of the house should force Mr. Randall and his followers to fall into line or be read out of the party.

CENSURING CLENDENNING.

Chicago Democrats Want the Postmaster

Removed.
CHICAGO, September 2.—After a lively meeting, behind closed doors, the democratic state central committee, to-day, by a vote of 13 to 10, adopted a resolution requesting the federal authorities to investigate the alleged connecauthorities to investigate the alleged connection of a well-known democratic editor and postmaster, H. W. Clendenning, of Springfield, with a corrupt legislative printing "combine," and if, since the state senate report on the subject, he has upheld the "combine," he be immediately dismissed from office as unfit for any position of honor, trust or profit, under the present national administration. The resolution, likewise, severely denounces all alleged connection with the "combine" of Governor Oglesby and other republican state officers, who are supposed to be seking renomination.

A substitute and resolution, declaring that Appointments and removals of federal officers should not be usurped or interfered with by political leaders was lost—14 to 9.

Before either resolution was put to a vote, a letter of protest, against the action taken, was read from ex-Governor John Pal-mer; also, a letter from Postmaster Clendenning, calling attention to the fact that Clendenning, calling attention to the fact that the senate investigating committee has exonexated him. Clendenning denied the jurisdiction of the state central committee over his
case and invited the complainants against him
to present their charges to the postoffice department, at Washington, where they would
be met and refuted. The reason for desiring
Clendenning's dismissal, is stated by promoters
of the resolution, to be that only in case he is
deposed by President Cleveland can the democratic party effectively use the state printing
steal against republican office-holders.

Nashville, Tenn., September 2.—[Special.]
Prospectors are roaming about the mountain country of Tennessee, through which railroads are to pass, seeking ore beds which can now be bought for merely nominal prices. Rich lead and silver have been found in several localities. In one immense cave in Putnam county, five distinct veins of lead, all valuable, have been found. Just now, considerable excitement prevails in the upper edge of Smith county, and the adjoining portions of Putman and Jackson counties over the reported discovery of lead and silver ore. It is said to exist in paying quantities at several places in that region This lead ore is declared to be the cause of deadly sickness in certain sections. The poisonous salts of lead become dissolved in the water in the hills and runs out a spring of deadly poison, for not over two out of five persons affected recover. There is another large cave on the premises of Hop Lee, in the same section, out of which valuable specimens of lead ore have been obtained. This ore is also said to give off noxious-gases that render the exploration of the cave very dangerous. Three men lost their lives in the cave at one time, being suffocated. Large Deposits of Lead Which Poison the Waters.

THE UTE TROUBLES.

A Conference to Be Held to Which Colorow is Invited. Denver, September 2.—A telegram from Meeker August 31st, says that Governor Adams, General Crook and Congressman Symes have been engaged all day discussing the Ute question, but have not arrived at any conclusion as to a settlement of the question. Nothing more will be done until the return of the governor's courier, Joe Colbrand, who has been sent to the receivation to ask Colorow to been sent to the reservation to ask Colorow to

been sent to the reservation to ask Colorow to be present at the conference.

A special from Meeker, dated September 1st, says that the conference between Governor Adams and General Crook resulted in General Crook's agreeing to place two companies of government troops on the line between the Unitah reservation and Colorado, for the protection of settlers, and hereafter, to keep the Utes out of Colorado. The Utes are to have their horses returned and be paid out of the surplus of their own annuity for such stock as has been lost. Governor Adams and party leave for Denver tonight, and General Crook starts for Omaha.

A HORRIBLE DEATH.

A Sixteen-Year-Old Boy Dies of Hydropho bia. Kenosha, Wis., September 2.—Richard Emerson, sixteen years of age, of Chicago, died here last night of hydrophobia. He was bitten about two months ago by a pet dog belonging to the family and showed signs of mortification. His father took the precaution of calling a physician and having the wound cauterized. Nothing more was thought of the matter and about two weeks ago, the lad came terized Nothing more was thought of the matter and about two weeks ago, the lad came to Kenosha to visit. Day before yesterday he commenced complaining of the swelling of his arm and a physician was summoned, who, upon learning the facts, pronounced a well defined case of hydrophobia. The lad grew rapidly worse and became so violent that he would tear the sheets and bedclothes when the attacks would come on him. Before death came to his relief, the mattress and bedding were literally torn up and scattered about the room.

BEFORE THE COMMISSION.

The Seaboard and Roanoke Railroad Makes Answer.

Answer.

Washington, September 2.—The Seaboard and Roanoke Railroad company, for itself and its associate corporation, the Seaboard Air-Line, has filed with the interstate commission a response to the complaint of the New York, Philadelphia and Norfolk railroad. The respondents deny that they have practiced discrimination or refused any reasonable facilities for the interchange of traffic. The respondents charge in return a variety of shortcomings. for the interchange of traffic. The respondents charge in return a variety of shortcomings, past and present, against the complainant. The respondents, in conclusion, submit that their petition of complainants should be dismissed on the ground that "an arrangement for the conduct of through business has already been projected and agreed to" by the authorized agents of complainant and respondent's corporations.

THE TEXAS FLOODS.

Bridges Washed Away and Great Damag Done to Railroads. Done to Railroads.

Waco, Tex., September 2.—Every bridge in Hill county was washed away by the rains and the damage to crops and farms will not fall short of \$100,000. In Bosquette county, and along the line of the Santa Fe railway, the damage is also very heavy. Of little towns, Iredell, Whitney, Hicks, and Aqualla, have suffered most. The railroad companies have suffered severely. It is believed the Central and Missouri Pacific roads are the heaviest losers. The Missouri Pacific has a force of nearly 1,000 men at work on the line near Grand View. A train on the road was detained between Itasca and Grand View from Monday night till vesterday evening. It was out day night till yesterday evening. It was out on the prairie nine miles from any house, and many of the passengers suffered for lack of food. None of the roads are running their full schedule yet.

OBSTRUCTIONS ON THE TRACK.

Attempt to Wreck an Excursion Train in Ohio. Ohio.

CINCINFATI, O., September 2.—An infamous attempt to wreck a train for the purpose of robbery, is reported from Lebanon, Ohio. At about 2 o'clock yesterday morning, as a train of eleven cars, with 500 passengers, was returning from Cincinnati, the engineer encountered, at a point about a mile from Lebanon, an obstruction, made of railregd ties and force an obstruction made of railroad ties and fence rails. By good fortune, the train had stopped only a short distance before it, to let off some passengers, and had not obtained sufficient speed to be seriously injured when the ob-struction was reached.

The Baltimore and Ohio Passes Into New Hands.

TELEGRAPH AND EXPRESS ALSO SOLD. Purchase-How the Matter Was Arranged and the Terms.

NEW YORK, September 2 .- Ever since Mr. Garrett wrote his letter to Mr. Singerly, editor of the Record, of Philadelphia, breaking off the Ives negotiations, he has been working to save his Baltimore and Ohio road. Negotiations were continued by him with J. S. Morgan on his arrival in London, and today an ar-rangement was announced that is only equal-led by that of the West Shore settlement with the New York Central and the forming of the Reading syndicate to reorganize that company. Both of these deals were carried through by Drexel, Morgan & Co. Edward Lauterback gave a legal opinion today upon the question whether the sterling loan made by the Balti-Drexel, Morgan & Co. Edward Lauterback gave a legal opinion today upon the question whether the sterling loan made by the Baltimore and Ohio railroad covered the telegraph system of the company. He decided that the telegraph lines were free from all liens, and under this opinion, the agreement in the nature of preliminary contract, was executed. The parties to the contract are the Baltimore and Ohio railroad company and a syndicate composed of J. S. Morgan & Co., Baring Bros. & Co., and Brown Bros. & Co., of London; Drexel, Morgan & Co., Kidder, Peabody & Co., and Brown Bros. & Co., of this city; and Drexel & Co. of Philadelphia. The most important point in the contract, provides that the management of the company shall be placed in competent hands, satisfactory to the syndicate. A. J. Cassatt, vice-president of the Pennsylvania railroad, is generally believed to be booked as Mr.Garret's successor. Satisfactory contracts are also to be made with the Pennsylvania and Reading railroads on all business north of Philadelphia and with all the other trunk lines entering New York, by which all antagonism will be removed and insure the permanent working of the Baltimore and Ohio in harmony with the other trunk lines.

In addition to these contracts, the line in process of construction from Philadelphia to New York will be suspended and the work on Staten Island stopped. In consideration of these contracts being signed, and with control in their hands, the syndicate agrees to relieve the railroad from its present embarrassment by providing \$10,000,000 with which to take up the floating debt. This will be represented by \$5,000,000 in Baltimore and Ohio consolidated fives and \$5,000,000 preferred stock. The floating debt, as it stands, amounts to \$7,000,000 mostly in shapē of certificates of indebtedness, scalp and notes. Of this amounts \$4,000,000 is said to have matured on the first instant and was the chief factor in bringing about the present result. One of the parties to the syndicate says:

"All outside enterprises

of the railroad company will be entirely reorganized and placed upon a sound financial basis.

The clause of the contract suspending all work on the extension from Philadelphia to New York is believed to be a key note of the syndicate's interest in the negotiations, and is construed to mean that the Baltimore and Ohio railroad, when divested of all extraneous enterprises, will be operated practically by the Pennsylvania railroad.

After a long conference of the company's officers and Drexel, Morgan & Co., the following was executed today by that firm: A preliminary contract has been executed today between the Baltimore and Ohio railroad company, Baring Bros. & Co., and Brown, Shipley & Co., London, and their houses on this side. This contract provides for the negotiation of \$15,000,000 Baltimore and Ohio econsolidated bonds, \$5,000,000 Baltimore and Ohio preferred stock for the purpose of paying off the floating debt of the company and placing it on a sound financial basis. The conditions are as follows:

1. Verification of statements, etc., as made.

2. That the management of the campany shall be placed in competent hands, satisfactory to the syndicate.

3. That satisfactory-contracts shall be made between the Baltimors and Ohio and other roads for New York business, which shall remove all antagonism between them on the subject, and insure the permanent working of the Baltimore and Ohio in entire harmony with other trunk lines; also, avoid construction, of expensive parallel lines north and east of Philadelphia.

The parties interested on this side are Drezel, Morgan & Co., Drexel & Co., Brown Bros., and Kidder, Peabody & Co.

THE MACON AND COVINGTON.

Payment on the Coupons of the Macon and Covington.

New York Sun of today, in its financial article, mentions among the few unfavorable happenings in Wall street yesterday, that the Covington and Macon railroad of Georgia had defaulted in the payment of interest on its first mortgage bonds. Douglas Greene, of Greene and Bateman, who is president of the road, says there was no real default. He explains the matter in this way. He says the road being still in process of construction, it has never as yet been turned over to the company by the contractors, and that so long as the contractors have the property in hand it is their obligation to produce money to pay the interest on the bonds.

The contractors neglected to put President Greene in funds to pay the coupons of the first mortgage bonds, which fell due yesterday, and in his official capacity Mr. Greene says he was not bound to pay them until that provision was made. He advised the contractors of this, and they promptly supplied the funds. This is said in explanation of the day's delay. Today the coupons are being paid on presentation, and everything is as smooth as a ribbon. Payment on the Coupons of the Macon and Covington.

The Strike is Off.

BIRMINGHAM, Ala., September 2.—[Special.]
Yesterday the brakemen on the Louisville and Nashville railroad withdrew their petition for more pay, but today a petition, signed by thirty-seven of them, was presented to the superintendent. The last petition is for pay for delayed time. The men have stopped work until they receive an answer, and a general strike is thought to be imminent. General Manager Harahan, of the road, is in the city, and will remain until the matter is settled.

A portion of the walls of a three-story brick building, in course of erection, fell today, slightly injuring one workman. Inferior mortar caused the wall to give away.

Kirk Robinson's Failure. ORANGEBURG, S. C., September 2.—[Special.] Kirk Robinson, an insurance and collection agent of this town, failed today. He had been getting behind in his accounts for some time, but managed to keep his business going by some means. His liabilities are estimated at about \$10,000, but will probably amount to more than that. His assets are nothing. He probably owes Dr. W. F. Barton more than any other creditor. Dr. Barton will lose \$2,500. The other creditors are insurance companies and firms doing business with men in Orangeburg. There is a good deal of complaint, but no one seems to think Robinson pocketed the money, but that he has spent it in his business and has failed to make ends meet. He seems to be in great distress about the matter, and says that bad management broke him, and that the failure grew on him by degrees. She was found on board the steamer Gulf Stream, and together with her daughter, herought to redice her daughter, brought to police headquarters. Instead of sending her down stairs, she was handed over sending her down stairs, she was handed over to Matron Welsh, who is in charge of lost children, and a policeman placed on duty outside of the door of her room. She soon investigated her prison and found that a closet in her room had two doors, one of which opened the way to freedom. She used it and walked down stairs, leading to the street. Officers at the main entrance, thinking she had called for a missing child, asked her if she had found her little one. She answered in the negative and passed out into the street. She was not missed until this morning, when there was quite a commotion at the central office, which has always been believed to be safe from the schemes or wiles of law-breakers. The daughter of the escaped prisoner was left behind. Explanations all round are in order today.

A Case Which Greatly Resembles That of General Valentine Baker.

London, September 2.—A considerable sensation has been caused throughout England by the following account of a crime which was committed on Saturday night last on the express train running between Wellington and Shrewsbury. Unfortunately this offense, which vividly recalls to mind that for which General Valentine Baker was disgraced, is of frequent occurrence on the English railways, and will continue to be so until the American system of railway carriages takes the place of the cooped-up, little compartments in which English travelers are locked up from one station to another without any means of communicating with the conductor or with their fellow-passengers in the adjoining compartments. An occurrence of the kind told of below would be practically impossible on an American railway. The victim in the present case is a Miss Catherine Scragg, a governess, who was returning to her post at the conclusion of her vacation, and her statement is as follows:

"As the train was leaving Wellington for Shrewsbury a rough-looking man sprang into the compartment in which I was alone. I thought of jumping out, but the train was already going at a high rate of speed. I began to read, whereupon he interrupted me, saying that he was on his way to Shrewsbury to see his wife, whom he had not met for some weeks. I made no answer. He thed approached me, put an arm around my neck, and attempted to assault me. I fought hard and screamed loudly. He beat me violently, trying to render me unconscious. I made for the door, opened it and was about to spring from the train, when I found that my dress was caught in the door and that I would be dragged under the train. A gentleman in the adjoining compartment saw my position and pulled me into his compartment through the window. My assallant followed, yelling with baffled fury, but the gentleman who had rescued me drew a sword-cane, whereupon he immediately retreated." After the report of the occurrence had been made to the p

FIGHTING THE OUTLAWS.

A Desperate Encounter in Arizona-Eleven Persons Killed.

San Francisco, September 2.—A Flagstaff. Arizona, special confirms the report that Mulvenon, of Yavapai country, was shot in an encounter with Tewksbury—Graham outlaws—in Tonto basin, about one hundred miles south of Flagstaff. He died soon after the fight. Five of the deputy sheriffs with him were wounded in the same fight. Eleven of the outlaws are reported killed. Mulvenon and his posse left Prescott, a week ago with warrants for the arrest of ten men who were implicated in the killing of three cowboys, three weeks ago. A posse from here joined them on the road. Nothing has been heard from them, directly, until today. The rumors of yesterday were discredited last night. The wildest reports are now in circulation and an armed posse has gone to the relief of the deputy sheriffs.

Protestations of Innocence.

Protestations of Iunocence.

Columbus. Ohio, September 2.—Josiah Terrill was executed at 12:30 this morning and proclaimed his innocence after he had been brought upon the scaffold. The execution took place in the annex at the penitentiary, and about fifty persons witnessed it.

He slept well up to 11 p. m., and then ate a lunch, and after smoking was ready to proceed to the scaffold. His exhibition of nerve was something wonderful and those who had seen many hanged before, stated that they had never witnessed one in which there was so much quiet determination exhibited.

He was accused of the murder and robbery of an old man named Phelps, on January 6th last Terrill was convicted wholly on circumstantial evidence, the stolen articles being found in his possession and fully identified.

Negro Desperadoes in Carolina. Negro Desperadoes in Carolina.

Columbia, S. C. September 2.—[Special.]—
The Jenskinsville neighborhood of Fairfield county is terrorised by an organized band of negro robbers, who have been committing wholesale depredations of late. One of the gang was caught yesterday and carried before Justice Glenn, tun just as he imposed the sentence the negro walked away. The justice selzed him but the flegro made violent resistance and succeeded in escaping. A posse was organized and started in pursuit but failed to bag the game. They are not only given over to robbery but are a terror to the negro women of the community who they assault and outrage without much a do in the matter. They are a desperate set and they—will not be taken alive, but the people are determined to bring them to justice at all hazards.

Holding the Railroad Responsible. MONTREAL, September 2.—Crown prosecutors yesterday decided to bring an indictment before the grand jury in the court of queen's bench against Joseph Hickson, general manager of the Grand Trunk railway, on the charge of manslaughter. The coroner's jury had previously brought in a verdict holding the railway company criminally responsible for the death of Labrauche and Tremblay, run over and killed by a train on July 12th.

Discussed in the House of Commons—Cansda's Representatives.

London, September 2.—In the house of commons this afternoon the government was asked if it was intended to refer article 30 of the treaty of Washington to the fisheries commission, as well as the fishery articles; whether the composing powers of the commission would be in accordance with the memorandum of the American government of June 22, 1885; whether the terms of the draft of the protocol submitted by United States Minister Adams to the earl of Clarendon, in 1856, would form a part of the matters referred to the commission, and whether the Alaskian fisheries question would be referred to the commission.

Sir James Ferguson, parliamentary secretary to the foreign office, replied that it was not intended, at present, to refer article 30 to the commission. He was not prepared to say that the American memorandum referred to would limit the scope of the commission, and, regarding the Adams protocol, he referred the inquirer to Lord Salisbury's dispatch of March 24th, last, the views of the British government in proposing the commission. The full terms to be referred to the commission were, as yet, undecided. The inclusion of the matter of the Alaskan seal fisheries would receive consideration.

MONSTER MEETINGS

To be Held in Ireland, Notwithstanding the Proclamation.

Proclamation.

ENNIS, Ireland, September 2.—The viceroy's proclamation forbidding the proposed meeting here has been posted throughout the town. Great excitement prevails. Messrs. Stanhope, Dillon, O'Brien, Tanner, and Cox, all members of parliament, have telegraphed to local league officers promising to attend the meeting. The nationalists have issued a manifestocalling upon the men of "Historical Clare" to assemble in thousands on the hills of Ballicoree to fight the battle of the constitution, which will be certain of glorious consummation—the disenthrallment of Ireland.

London, September 2.—Joseph Richard Cox, member of parliament for East Clare, writes to the papers that he will address his constituents at Ballicoree on Sunday, notwithstanding the fact the government has proclaimed the meeting.

The Government Leader Jeered by the Parnellites.

London, September 2.—The votes of money for the Irish government are still under debate in the house of commons. This evening the Parnellites discussed the administration of law in Ireland until Mr. Smith, government leader, appealed to the chairman to stop the debate. The chairman replied that he had no power to do so; he could only appeal to the members themselves. This was received with loud cheers by the Parnellites. Mr. Tuitefa taunted Mr. Smith upon his inability to apply the cloture, and said he would have to bring his 200 members to London.

After six hours and a half discussion, the vote for expenses of criminal prosecution in Ireland was passed.

TRYING TO ADJOURN.

Some Fun in the House of Representatives Yesterday.

The Finance Committee Reports Favorably Tpon the Dahlonega Appropria-tion-A Day's Work,

The readers of THE CONSTITUTION will remember that the report of the proceedings of the house of representatives on Saturday, Aug-ust 27th, (one week ago today) showed that it was impossible to get a vote of a quorum of the members on pending measures, although motions were repeatedly put, and that finally the speaker read rule 128. Mr. Ham therefore deanded the call of the roll of members, which was sustained by twenty other members. The speaker had the doors closed while the roll was being called. It was found, however, that 89 members responded to their names, just one

members responded to their names, just one over a quorum.

The house is very thin on Saturdays and Mondays, caused by members obtaining leaves of absence to go home. This leaves the house with a bare quorum, and if there is any opposition to a bill, its defeat is assured.

The members who stay at their posts, growing restive under this course of procedure, determined yesterday in the house to make a point it. Mr. Preston introduced a resolution that when the house adjourned it adjourn until Monday morning atfaine o'clock. He said he offered it in good faith, that members were anxious to get home to look after their crops, and that on Saturdays little business was done.

Mr. Crawford moved to lay the resolution on the table, which did not prevail.

Mr. Candler opposed the adoption of the resolution. When parties accepted spublic trust, he said, it was with the understanding that private business must give way to it.

"You go home every night, do you not?" asked Mr. Schofield.

"Yes, sir," replied Mr. Candler; "but that it must be meetion. The genestion is, shall a

The call was sustained and the resolution voted down by yeas 28, nays 82.

Those who wished to adjourn over did not like being voted down, and so Mr. Preston with the intention of making the house put in realid day's nextle of great a scale time that the a solid day's work offered a resolution that the is meet at 7:30 a. m. on Saturday, which, in the sound, was carried.

Ir. Schotield called for the yeas and nays

which was sustained by 61 yeas.

Mr. Harrell, of Webster, moved that the house do now adjourn, which motion did not

prevail.

"Mr. Speaker, what effect will it have if there is no quorum of the house present at 7:30 a. m. tomorrow," asked Mr. Lamar,

"The presumption is that there will be a quorum present," said Mr. Glenn.

Mr. Kenan moved to amend by striking out 7:30 and inserting 9 a. m. Lost, the vote standing yeas 45, nays 53.

The calling of the yeas and nays on the passage of the resolution was dramatic and exciting. Members were in the utmost good humor, and the announcing of a vote was greeted with laughter and applause.

At one time the vote stood a few votes in favor of the nays, whereupon members began to change their votes to the yeas' side, until it stood finally yeas 68, nays 50.

Messrs. Adams of Greene, Adams of Elbert, Cook, DuBoze, Harrell of Webster, Hawkins, Hayes, Kenan, Lamar, Matthews and McCord changed from "no" to "yes," and Mr. Pickett from "yes" to "no." The following is the vote:

Mr. Blalock offered an amendment to in-

which was also accepted.

Mr. Schofield commented on the serious aspect that absenteeism had as rious aspect that absenteeism had assumed. It was wasting the time and money of the people. Those who lived near by could visit their families every night. Those who came from a distance were cut off.

Mr. Felton, of Bibb, indorsed all that was said by Mr. Schofield. A large proportion of the members go home on Friday, leaving a bare quorum to transact business. Either all

The University Appropriations.

Because of the action of the finance committee of the house yesterday, in agreeing to resommend favorably the bill appropriating \$5,000 to the North Georgia Agricultural college at Dahlonega, it is now probable that the house will pass both of the university appropriations, it will be remembered that the bill giving \$5,000 to the university at Athens did pass the house, but owing to the failure of the Dahlonega bill before the finance committee, the advocates of the Dahlonega measure tee, the advocates of the Dahlonega measure thinking an injustice had been done their in-

stitution secured the reconsideration of the bill appropriating money to Athens. Both measures now are before the house with the favorable report of the finance committee, and it is almost certain that the friends
of higher education in that body will rally to
the support of both bills. The money is needed
at both places, and the needs are immediate
and urgent. It is likely that at an early date
the measures will come before the beautery.

Mr. Howell introduced in the house yester-day a bill incorporating the Piedmont Savings bank of Atlanta.

Section first provides that Charles C. Nelson, E. F. Gould, J. N. Smith, D. G. Wylie and G. W. Collins, shall constitute a body corporate under the name of the Piedmont Savings bank; that the capital stock shall be \$50,000, with the privilege of increasing to \$250,000. The charter continues in force for twenty years.

Senate Routine.

After the reading of the journal in the sente yesterday the discussion of the Brady bill
as immediately resumed. The entire session
as consumed in that discussion, and the

friends of the bill, by dilatory motions and filibustering prevented a vote from being

taken.

A few minutes before the hour of adjournment arrived a motion was made to extend the session for the purpose of concluding the debate, but the senate refused to agree to the proposition. It was then moved to adjourn until Monday morning, but that motion did not prevail. Finally Mr. DeJarnette called the previous question, and the friends of the Brady bill called for the yeas and mays. On the motion to call the previous question, which was a probable test vote of the strength of the Brady bill, the vote was as follows:

Yeas—Atwood, Brantly, Davis, Dean, DeJarnette, Faver, Fester, Hamilton, Hard of the 8th, Hand of the 9th, Lamk n, Lewis, Livingston, McKamy, Peek, Powell, Pringle, Roberts, Rusk, Sanith of the 6th, Wright of the 1st—yeas 21.

Nay—Brayner, Butt, Coer nay, Dilworth, Guerry, Hawkes, Hadon, Jackson, McCants, Northout, Ritchile, Robins, Strumns, Smith of the 2lst, Turni; seed, Woford, Wight of the 38th—Anys 18.

Those voting in the affirmative upon this call are understood to be opposed to the bill.

The effort to defeat the operations of the previous question was continued and before the vote could be taken upon the question whether the main question should be put, a motion to lay the bill upon the table was made, and upon that the yeas and nays were called. The vote was essentially the same as that recorded on the previous question. After some further squabbling a motion to adjourn until Monday was made, and upon it also the ayes and nays were demanded. During the taking of the vote the regular hour of adjournment arrived, and the previous question and adjournment arrived, and the previous question of absurement arrived, and the previous question to adjournment arrived, and the previous question and pour the senate adjourned until today at 10 o'clock.

From the Greensboro, Ga., Herald.

We were handed the other day by Mr. Z. Daniels, of Augusta, an interesting relic in the way of a copy of the Augusta Chronicle of October 27, 1865. The paper contained only two pages, mostly war news, and had grown yellow and brittle with age. Glancing over the columns we saw accounts of heavy skirmishing at Jackson, Miss., in which the federals, under McPherson, were repulsed with great losses. An account is also given of a review of the troops at Enterprise, Miss., by President Davis. The paper publishes a dispatch stating that Grant had been placed in command of the army in Ohio, Cumberland and Kentucky, with plenary powers, and would assume the direction of affairs. Among the headlines are the following: "Rosencranz superseded. Grant to command federal army. Reported seizure of confederate rams." The copy of the paper before us is both valuable and interesting. In the editorials we noticed an article advising strict economy as the only means by which the south could hope to gain her independence, and calling upon the ladies to eschew fashion and the gentlemen expensive habits. "Let all practice self denial at home that they may have the more to give our gallant defenders. Even now there is much suffering among them." How well did the people respond only the old south knows.

That Tired Feeling

The warm weather has a debilitating effect, especially upon those who are within doors most of the time. The peculiar, yet common, is the result. This feeling can be entirely overcome by taking Hood's Sarsaparilla, which gives new life and strength to all the functions of the body.

"I could not sleep; had no appetite. I took Hood's Sarsaparilla and soon began to sleep soundly; could get up without that tired and languid feeling; and my appetite improved." R. A. SANFORD, Kent, Ohio.

Strengthen the System

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combination of remedial agents; 2d, the proportion; 3d, the process of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence. "Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. Thompson, Register of Deeds, Lowell, Mass.

GEORGIA:
By JOHN B. GORDON,
Governor of said State

HEREAS, OFFICIAL INFORMATION HAS been received at this Department that on the Zith day of August inst., in the county of DeKalb, a murder was committed upon the body of J. E. Hurst by Mack Pritchett and two other unknown persons, negroes, and that said persons have fled from justice, I have thought proper, therefore, to issue this my proclamation, hereby offering a reward of one hundred dollars for the apprehension and delivery of said Mack Pritchett, and one hun lived dollars each for the arrest of said unknown persons with evidence sufficient to convict, to the Sheriff of said county and State.

And I do moreover charge and require all officers in this State, civil and military, to be vigilant in endeavoring to apprehend the said persons in order that they may be brought to trial for the offense with which they stand charged.

Given under my hand and the Great Seal of the State, at the Caritod in Attanta, this the 31st day of August, in the year of our Lord One Thousand Eight Hundred and Twelfih.

THE DEVOTION SHOWN TOWARD HIM.

Mr. Davis's Interest in Practical Education His Visit to the State Fair-A Grand Reunion-Other News.

Maçox, Ga., September 2.-[Special.]-Your correspondent had an interesting talk with President Northeu of the State Agricultural association to-day. Colonel [Northen was found in his office at

the Hotel Lanier, and looked pretty badly tired out.

"I have been up for several days and nights," said he, "and I am worn out. I have got a lot of business to transact before I go home to-morrow, and am pushed for time."

A VISIT TO BEAUVOIR,
was the subject of most interest, and Colonel Northen said: "I was received most kindly by Mr. Davis and his family. The time passed away most pleasantly during my stay there, but every time I looked upon that gray haired chieftain, my heart swelled, and whether it was maniliness or childishness I am un-

there, but every time I looked upon that gray haired chieftain, my heart swelled, and wheth or it was manliness or childishness I am un able to determine, but I tell you the tears would come into my eyes in spite of all could do. In conversation with Mr. Davis learned to my surprise, that he is al practical farmer, and deeply interested in technical education. He told me of a poor young man up in Hernando county, Mississippi who wrote him that he was struggling to secure an education, asked Mr. Davis to aid him. With his Characteristic Goodness of Heart, Mr. Davis sat down and wrote to General Stephen Lee, president of the State university to secure the young man a place in that institution. General Lee replied that it was har to refuse any one, especially when the requescame through Mr. Davis, but there were on hundred and seventy applications then on finand on account of the Mississippi legislature movement to cut down the appropriation,

in securing positions, and others already the would probably have to be sent away. M Davis then went on to task of technologic oducation of a practical sort, and deplored it tendency toward higher liferary training, and the lack of interest in that sort of training schools that would turn out young men we equipped for earning a living in the commo walks of life.

HE GERW ELOQUENT in discussing this subject, and relatee a case in the commo walks of life.

walks of life.

In discussing this subject, and relatee a case in point to illustrate his idea. Colonel White, a wealthy gentleman who was visiting Mr. Davis at the same time, had become impressed with the successful experiment of General Lee, at the university, in establishing a creamery and dairy farm. Having plenty of money, Colonel White decided to establish a creamery of his own. After purchasing the stock and material, he wrote General Lee to send him a man to put it in working order and to superintend it.

explained all the details, and soon had it on a
successful footing. Resides that he superintended the management of the business for two

secured another student from the State university who is now running the business successfully. Mr. Davis spoke of Georgia's efforts to build up a technological school in terms of the highest approval, and I found him fully as alive to the interests of the south as he was a quarter of a century ago. In speaking of these industrial movements he said, 'If our people will only go to work in carnest to educate the young men in this manner our country will soon develop into the most prosperous land on earth, and we will not more witness the spleudor of our old time prosperity.'

prosperity."
"The dovotion of the people to Mr. Davis Is something pathetic. They all seem to guard the old man with the most watchful and jeal-ous care as if they feared he might suffer by the least neglect.
"Miss Winnie Davis showed me around the grounds, took me down to the heach and

grounds, took me down to the beach and through the gardens, and I found her a charming woman, fully acquainted with matters of current interest, and able to express herself with remarkable clearness on any subject. But the way she looks after her aged father, anticipates his wishes and ministers to his every want shows that she is a true and faithful.

want shows that she is a true and faithful daughter, anxious to be a support to the old man in his declining years.

IN MANY LITTLE WAYS

she exhibited her affection and tender solicitude for her father. If she but touched his arm there was something in the greaters that arm there was something in the gesture that went straight to the heart. Mrs. Davis is equally as devoted to her husband as is the daughter to her father. There I met the chief objection to Mr. Davis's visit. She was so apprehensive of some evil result that might follow an extended trip, that it was long ere she would agree for him to undertake it, and it was only after I had given every assurance that he would not be subjected to any fatigue or overexertion that her consent was obtained."

"Well you try to get up a reunion, colonel?"

"Yes, I am writing to the

"Have you any new schemes for the state fair arkhitee."

"Yes, I have written to the president of the State university, and other educational institutions, including Mercer and Wesleyan, urging them to place on exhibition models, drawings or manufactured articles made by students of the male colleges, and for art displays, needlework and other objects made by the pupils of female institutions of learning. I hope to get them into the notion to make a general display of those things, as the educational institutions and everything pertaining to them ought to be advertised at this fair."

"What do you think of the general outlook for the fair?" "Yes, I have written to the president of the for the fair?

"I consider it exceptionally bright. I believe that Mr. Davis's visit will bring thousands here who might not otherwise be present,
and besides I find more interest being taken

Rogers was called to the chair, and the reporters were asked to act as secretaries. Colonel Northen 2 then explained the object of the meeting, it is said that it was thought it would be better that the citizens take some action in regard to entertaining Mr. Davis, as the state lair officials would have so much on their hands they would not be able to arrange matters as they would not be able to arrange matters as they would wish.

Colonel Greer moved that Hen. Thomas Hardeman be selected to transmit the action of the meeting to the family of Mr. Davis. The motion was adopted.

Captain Frank Hervey moved that a committee be appointed to superintend the details of selecting an escort to accompany Mr. Davis from Beanvoir to Macon and return, and to appoint sub-committees on the reception. Macon, Ga., September 2.—[Special.]—Rev. W. B. Burke, of Macon, Rev. U. O. Mosely, of Arkansas, and Miss Gaines, of Kentucky, are probably being borne across the billowy bosom of the broad Pacific today. They were to have sailed from San Francisco yesterday. Rev. J. W. Burke, father of Rev. W. B., received a letter from his son dated Kansas City, August 22d, in which the young missionary speaks very pleasantly of the reception he and his party met with there. Many friends in Macon wish the party god-speed.

Dalton, Ga., September 2.—[Special.]—
The patriotic proposition to care for our indigent confederate veterans has met with such
general approval that it would seem that the
legislature is justified in taking some immediate step to that end. The sale of the capitol
building is now out of the question. Most
any town will donate suitable grounds. Why
not the state appropriate \$25,000 to erect suitable buildings for immediate use, and authorize
the rentals from the capitol building to aid in
sustaining the charity, or, if the appropriation is

On last Sunday morning a boy came into Greenesboro from the river beyond Colonel J. N. Armor's and reported that a negro named Albert Smith had been found dead on the river bank the night before, and that he had been shot. Coroner Foster empaneled a jury and went at once to the scene. The evidence developed the fact that about an hour by sun Albert had left the cotton field where he was at work and taking his gun in his hand, went to the river to look after some fishing hooks he had set out. Not returning home at supportime his family became alarmed, and a party of men started out to hunt for him. They found him at last lying on a steep slant of the river bank with his gun under him, his body held up by a small tree, and a hole in the right side of his neck from which the blood was still oozing. He was dead when found and the gun had been exploded. From the surrounding circumstances it was believed that in climbing up the steep bank of the river his foothold had given way, and the gun which he carried in his right hand had struck against the undergrowth and was exploded with fatal effect. The jury found a verdict in accordance with the above, and that Albert had been accidentally killed by a gun in his own hands. A terrible tragedy occurred on the plantation of Mr. Lucius T. C. Lovelace, near West Point, on Wednesday of last week, at twelve o'clock, M., the victim of which, Dillard Holstun, now lies in a bloody grave, while the perpetrator of the deed, Peter Story, is at large. Both were colored men, and brothersin-law. Bad blood, it seems, existed between the men, on account of Holstun's treatment of his wife, who is Story's sister. On Wednesday, while they were at dinner, Story's fell purpose of murder, (for the crime has every appearance of having been

Columbus, Ga., September 2.—[Special.]—
The new Jewish temple was dedicated this evening. The exercises, though very long, were quite interesting. They were opened with a song, followed by prayer by Rabbi Jacobson, of Atlanta. Then there came more music and the reading of Solomon's dedicatory by Rabbi Weiss, of this city. The oration was delivered by Rabbi Hecht, of Montgomery. The other exercises were quite attractive and the music was unusually fine. Tonight the event was celebrated by an elegant banquet at the Rankin house. There were many visiting Hebrews present. The new temple is one of the handsomest houses of worship in the city.

The Johnson County Children Come Together.

WRIGHTSVILLE, Gla., September 2.—[Special.]—Yesterday was a regular gala day with the citizens of Johnson county, and it was especially so with the citizens of Wrightsville, as the many Sunday schools of Johnson county met in convention, it being the annual meeting of Johnson county's Sunday School association. Captain James H. Hicks, president of the association, filled the chair with ability and to the entire satisfaction of all interested. The choir rendered excellent music on the occasion, indeed Wrightsville excelled herself in this item of the programme.

The reports from the various schools were altogether flattering, and showed conclusively that the people of Johnson county are fully awake on this subject.

A sumptuous dinner and "oceans" of ice cold lemonade were served at 12:30 p m.

Just before dinner was served the Wrightsville cornet band madesome delightful sacred music.

The People of Griffin Do Not Approve of the Attack.

GRIFFIN, Ga., September 2.—[Special.]—When the quiet, law-abiding citizens of Griffin awoke this morning and learned of the outrage perpetrated last night upon the Salvation Army, their indignation was freely expressed. There was strong talk of an indignation meeting being held to express the town's strong disapproval of such conduct. The Salvation Army is not popular in Griffin; in fact, there are very few people here who approve of their methods, but our good people are not willing to give their countenance to such conduct. Three men on their knees in prayer on the public streets are rocked and egged, while the city officers, policemen and aldermen are standing by countenancing the affair. The affair is a disgrace to our community and demands a full investigation. It is understood that the army have employed Colonels Thomas R. Mills and Frank Flynt, prominent attorneys here, and are determined to fight the matter in the courts. Several warrants were sued out this morning and damage suits are being prepared, and it looks like the affair will be sifted to the bottom and the guilty ones will be punished.

Warehousemen in 1836-7.

From the Hawkinsville, Ga., Dispatch.

Judge Grice has the warehouse or cotton books kept by Chastian & Dupree, in Haw kinsville, in the years 1836-7. They contain the original receipts for cotton shipped by the firm to Savannah and other ports via Darieu, and also receipts for cotton shipped by Chastian & Dupree. The price paid was generally fifteen cents—never less than fourteen nor more than sixteen. Among others we notice receipts for cotton sold from A. J. Coalson, James Picket, David Girtman, James Grace, Edward Cross, William Kinchen, Asa Harrell, James Farnell, Seaborn Rosar, D. B. Lowe, Abner Burnam, Thomas Speight, James Pope, William Wooten, Alfred Shiver, William Shell, John Fleming, Baptist N. Scott, N. R. Baskin, John I Anderson, Ira E. Dupree and D. M. Brown.

Of these and many other names one familiar in Pulaski and adjoining counties, which appear on these books, we recognize but one now living, though there may be others. We finda a receipt from S. D. Henderson, dated Nos vember 26, 1836, for \$174.34, being the proceedh of three bales of cotton, price 154 cents, which he received from Chastian & Dupree. We suppose this was the Uncle Sol Henderson who still does business in the village which bears his name in Houston county.

The Georgia legislature will soon elec an associate justice of the supreme court. The honor to be thus conferred is one of the highest in the gift of the state. Beyond this there is little in the office to make it

The salary is \$3,000 a year, less perhaps than any of the candidates would earn in the ordinary pursuit of his profession. The work required of our supreme court judges is out of all proportion to their compensation. They are confined at hard labor for nine months out of twelve. Besides the heavy mental strain, the necessity for great research and constant application, they are compelled to perform a great deal of wearing work in the preparation of opinions on the hundreds of cases which are argued before them at every term. Each judge must do all his own writing, unless his private means will enable him to employ a secretary. He cannot hope to pay for help out of his meager salary. A distinguished lawyer, whose name had been mentioned in connection with the existing vacancy on the supreme bench, declined to be a candidate because he could not afford to accept the office. In giving his reasons for this course "Several members of the court have labored their lives away."

At various times efforts have been made in the legislature to increase the salaries of the supreme court judges; to lighten their labors, either by increasing the size of the court, or by providing clerks to assist the judges in their work. All such attempts have met the same fate. They have been summarily and overwhelmingly defeated.

The Georgia Bar association at its meeting, two years ago in Atlanta, appointed a committee to go before the legislature and advocate reform in matter; but the judges stand today just where they did two years ago, except that their lot is a little harder now than it was then. The prospect for their relief is not bright. The growth of liberal ideas is often painfully slow.

The Hamilton-Gambrell Affair.

A few months ago, when Hamilton was arrested for the murder of Gambrell in Mississippi, the public sentiment of the state was so inflamed that it was almost impossible to get an unbiased opinion calmly expressed.

The friends of Gambrell claimed that he had been deliberately assassinated. They argued this view of the case in the newspapers, and some of the prohibition societies art | hed their money and moral support for the aid of the prosecution. All the talk appeared to be one way, and it was very violent talk.

Perhaps it is fortunate that the trial did not come off then, and it may be a good thing that it has been delayed for several months longer. It is said that a great change has taken place in the public senti ment of the state. Hamilton's friends have adhered to the policy of silence. The other side after its loud clamor for the conviction of the defendant is now in a calmer mood. People are beginning to consider the fact that Gambrell had been vigorously attacking Hamilton's character, and had expressed a willingness to have a personal difficulty with him. The conviction is growing that the two men met and had a fight in which Gambrell was killed. This is bad enough, but it will save Hamilton's neck, and it will be a relief to the community to come to the conclusion that the affair was not a cold blooded assassination.

If it turns out, after a fair investigation, that Hamilton was innocent, or that he killed Gambrell in the heat of passion during a fight brought on by an accidental meeting, the whole state should rejoice that the trial was postponed until after the partisans on the side of the prosecution bad relapsed into silence.

Freaks and Fancies of Society. What is called "society" has a way of fre-

quently making itself ridiculous in the eyes of sensible people. It furnishes abundant material for keen satire and laughable bur-

But occasionally "society" passes the stage where it is merely ridiculous, and lays itself liable to a more serious indictment.

The aim of "society" is supposed to be the association of persons of recognized character, intelligence, and good breeding. So long as it is faithful to this standard "society" does a good service in any community. Especially in large cities are social distinctions and social form necessary. But sometimes where society should be best regulated we find it disgracefully loose.

Newport is considered about the most aristocratic of American watering places. It boasts that it excludes the common crowd which flocks to louder resorts, and it hedges in the choicest circle of American society Newport turns up its nose at Saratoga, and considers Long Branch shoddy.

Accepting Newport's own accounts of itself we would expect to find "society" at

Among the visitors now at this charming and superfine resort is the duke of Marlborough. The duke has become notorious all over Europe by dragging one of the proudest names in English history into the mire of the most miserable debauchery. He has figured in countless scandals, the details of which could not be published in the most sensational newspapers. He has been kept out of jail only by the privileges of the nobility. He has squandered an immense estate in every species of riot and excess, "Give me a flop and have it bloody." and in the gratification of the lowest pro-

pensities of his nature. He sold family relies which had descended from his great ancestor, and robbed the famous Blenheim gallery of its choicest gems to obtain money for the pursuit of his vulgar and disgusting

He has long been shut out of decent so ciety in England, and his associates there and elsewhere in Europe are persons whose presence would shock elegant Newport so that it would not recover for a whole season. But how does it treat the duke?

When it was known that he was to be there it was rumored that Newport would snub him. Nevertheless, he went. Newport smiled on him and received him with open arms. He is the most conspicuous figure at the swell resort of the American aristocracy. One of the wealthiest and best known society ladies of New York gave a splendid ball in his bonor last Wednesday night. The duke danced with half-a-dozen "swell" young ladies who were "delighted at his attentions." He is burdened with invitations to dinner parties, sailing parties luncheons, and every sort of social enter tainment. It must be pleasant even to a person of the coarse nature and the low habits of the duke of Marlborough to associate with decent people once in a while and "his grace," as the Newport folks call him, is having a high old time.

One of the ordinary performances weak-minded Americans is to make fools of themselves over foreigners with titles and with nothing else, but it is seldom the case that they lavish their attentions and their money on such a miserable specimen as Newport is now caressing.

The Blair Educational Bill.

Senator Blair and his friends forced the New Hampshire legislature to pass a resolution indorsing the senator's bill to extend national aid to education. In doing so, however, they disclosed great opposition to the bill in the senator's own state and strengthened the general opinion that the movement for this kind of legislation is losing ground.

The New Hampshire legislature indorsed the Blair bill by a majority of only nine, the vote being 136 to 127. This was a very weak indorsement considering the fact that the senator used his personal influence to secure it.

At the next session of congress the Blair bill will be presented again. It will probably pass the senate. It went through that branch of the last congress by a decided majority. In the house it fell into the hands of a hostile committee and was pigeon-holed. The friends of the measure mustered sufficient strength to have it referred to the ommittee on labor, which was supposed to e friendly to it. The result disappointed their expectations. Though they made repeated efforts they were not able to get a rote on the senate bill or any substitute for it.

The outlook in the next house is not enouraging to the friends of national aid to education. Mr. Carlisle will probably be elected speaker again. He is one of the most pronounced opponents to the proposed egislation. Mr. Carlisle has a habit of arranging the committees of the house so that they will be in thorough accord with his views on the class of questions which they will be called on to consider.

In the last two congresses he appointed as chairman of the committee on education a gentleman whom he knew to be firmly opposed to federal aid to education. That gentleman is no longer a member of congress. He is dead; but Mr. Carlisle will find some one to take his place whose opinion will be satisfactory to the speaker.

The Age of Railroads. Few people realize the extent and impor tance of the railroads in the United States. We have grown so familiar with vast rail road systems that we do not appreciate their magnitude. The building of a new railroad now creates very little comment. There are about 140,000 miles of railroads in the United States. In all the world outside there are less than 200,000 miles. We have over two-fifths of the railroad mileage of the earth. In the state of Georgia alone there are several hundred more miles of railroads than there are in the whole German empire. And this proportion is increasing, for nowhere is railroad construction proceeding so rap-

idly as in the United States. These facts indicate a great change in the old conditions of commerce. Fifty years ago an inland town of any considerable size would have been an impossibility. Population was thick at the ports and grew sparse with the increasing distance from rivers and the sea. Railroads are now the great channels of trade. They make ports amid the mountains. Railroads are built right along the banks of our great rivers and compete successfully with water transportation. There never was a time when railroad enterprise was bolder, or when railroad investments were on an average more profitable. It is impossible to set a limit to the possi-

bilities of railroads in this country. Ir we are to go on losing our water supply at the rate of 400,000 gallons at a whack this will be a pretty dry town.

Popular English.

In the current number of Scribner's Magazine there is an excellent article on newspaper English, by Professor Hill, a well-

known writer on rhetorie. Perhaps our scholars worry themselves too much about newspaper English. If they desire to wrestle with a tough subject they should pitch into popular English. According to the New York Sun, a gentleman sitting in a restaurant, the other day, heard a man call for "a stack of whites. The waiter forthwith brought a plate of buckwheat cakes. Another customer said: "Give me a flop and have it bloody." This

young man vociferously demanded "a brass band without the leader, four steps and draw one in the dark." He got a plate of baked beans, four slices of bread, and a cup of black coffee. A call for "a mysterious stranger and one pale Chinaman,' caused the walter to bring a plate of hash

and a cup of tea. When the English of the masses undergoes such remarkable twists and perversions we cannot expect words to long retain their original meanings. Of course this sort of thing affects the newspapers. When all the world talks slang newspaper men will write slang.

Dr. Hawthorne read aboud the manuscript to me, no other person being present. He prefaced the reading of that manuscript by acknowledging his indebtedness to Dr. Strong, for very many facts therein contained. More than once during the reading he called my attention to Dr. Strong's words, and to his high appreciation of Dr. Strong's book. He took particular pains to have me understand these were Dr. Strong's ideas, and not his own. He commended the work to me, and advised me to procure it as a treasury of thought and instruction. He claimed nothing that belonged to Dr. Strong, and as I was entirely unfamiliar with Dr. Strong's book, I might have easily mistaken parts of the speech for Dr. Hawthorne's own ideas without this fank and perfectly fair statement. This letter is not presented in Dr. Hawthorne's interest for I rejiterate he will see it send. Dr. Hawthorne read aloud the manuscript to me, This letter is not presented in Dr. Hawthorne's in-tracts, for I reiterate he will see it and hear of it for the first time in your columns, but I offer it as a tribute to his frank truthfulness and entire unselfishness in this whole matter. Williams is about thirty years old. When a young man he ran away from home in Washington, and enlisted as a musician in the United States cavalry. He went to Arizona, tired of soldiering in a few months and deserted. He was captured and sentenced to six years of hard labor in the military prison on Alcatrez island in the bay of San Francisco. While in the prison there he met a young girl and sucisland in the bay of San Francisco. While in the prison there he met a young girl and succeeded in making her his wife No. 1. His father, hearing of Clinton's imprisonment, went out to San Francisco and succeeded in freeing his son on the plea that he was under age when he enlisted. After Clinton was released he left his wife in San Francisco and came east to Fort Wayne, where he enlisted in Company A, First Infantry, as a musician. President Turnbull called the meeting to der and Mr. W. P. Hill acted as secretary. Mr. Spalding, of the committee on escort, was called on for a report.
"With regard to the work of the commit-

tee," he said, "I can say that it is progressing finely, particularly in the towns and cities outside of Atlanta. We are receiving most entingiastic letters from north Georgia, east Georgia, south Georgia and west Georgia, and from all of these sections we are promised big delegations. Companies are forming everywhere, and the young men through out Georgia seem determined to do all in their power to aid us in making this the biggest demonstration of its kind the south has ever seen—one in every way worthy of the young men of the empire state of the south.

"I am sorry to say, however, that the outside towns seem so far to have done better than Atlanta has," continued Mr. Spalding. There have been but few appli-cations for captains' commissions for Atlanta companies, but there are, we understand companies, but there are, we understand, a number of companies in process of organization, of which no report has been made to the committee. We want particularly to urge that every member of this league and every young man in Atlanta take it upon himself to see that there is the biggest sort of a turn out on this occasion. The companies should be formed at once so the committee may know what to expect."

Mr. Spalding went into details of the reports received, all of which are of the most enthusi-

received, all of which are of the most enthusi-astic nature.

Several additional companies were reported by gentlemen present, and in some instances the names of the members were given.

The question of admitting cavalry to the procession was discussed at some length, and it was finally decided that it would be more democratic and more satisfactory all around if no mounted men be allowed in line.

Somebody suggested that there were some preliminary expenses which should be met

oreliminary expenses which should be and a number of gentlemen volunteered scriptions.
Colonel John P. Shannon and Mr. Adams

of Elberton, and Mr. Luther M. Farmer, of Newnan, were interested spectators. The meeting adjourned until Friday evening next when another meeting will be held at the Some Information of Interest. Some Information of Interest.

There seems to be an erroneous idea about the prizes offered by the exposition company. The parade of young men is not one of minitary companies, and there are no particular evolutions to be gone through. It is simply a civic display. Every man in line will carry a torch, and the appearance as the companies pass the president's stand will be the basis upon which the judges will form their decisions. There will be no outside drill or contest of any sort.

As to the question of uniform no uniform will be no outside drill or contest of any sor As to the question of uniform no unifor of any sort is required. It is left entirel to the taste of each company whether is members shall wear uniforms or not, and uniforms are worn the companies shall decide for themselves what they shall be. GRIFFIN, Ga., September 2.—[Special.]—An enthusiastic meeting of the young men of Griffin was held last night at the law offices of Stewart & Daniel. The object of the meeting was to organize companies to take part in the demonstration to be given to President Cleveland and wife. It was decided to organize five companies, and the following captains were elected: Major S. W. Mangham, Colonel E. W. & Harwood, Lieutenant Frank Flynt, Corporal D. J. Bailey, Jr., Captain Thomas Hall. All these gentlemen are enthusiastic military men, and will begin at once to organize their companies. The Result of the Discussion Yesterday i the Senate Upon the Brady Bill-The Bill's Opponents Defeated.

For three days has the Brady bill been before the senate, and yet the end of the discus-

ion is not at hand. Yesterday the opponents of the bill had magnificent opportunity of bringing the marter to a vote, and as one or two test votes in but the other side, the friends of the measur practiced superior parliamentary tactics, notwithstanding the previous question being called, succeeded in keeping the main question from being ordered, until the hour for ad journment arrived and the senate adjourner

WHILE THE The consequence is that, while there is an adverse report by the committee upon the bill and while the adoption of that report will be and while the adoption of that report will be fatal to the measure, it is entirely within the bounds of probability that, owing to absentees the senate may disagree to the report of the committee. This can be done by a mere majority vote, and it is believed that if the occision arises, will be practiced by the friends of the bill. While this disagreement, if successful, by no means indicates that the bill will be passed, for it requires a constitutional majority to pass it, it will give the friends of the measure a chance to amend the bill and in this way secure to it the votes of senators who have said that, with certain amendments, they will support the bill.

that the number of analyses was ridiculously
that the number of analyses was ridiculously that the number of analyses was ridiculously small compared with the quantity of fertilizer sold. Something like five hundred analyses for 166,000 tons of guano. He also criticized the reports of the inspectors of fertilizers, showing that the inspectors made from 150 to 250 samples of guano from quantities ranging from ten thousand to fifty thousand tons. He asked if that was protection to the farmer? If taking a small bottle here and there—in every two hundred tons, was faithful analysis or any protection to the farmers?

He commented upon the work of the chemist who was a professor at Athens. He asked how a man, who had his college duties to perform,

ould attend to the analysis of 166,000 of fertilizers. He could not do it, and there

was no use in saying he could!

[He read an affidavit from a man in his section showing that he had sent a sample of guano to the commissioner with the request that it be analyzed, and that the reply was the commissioner did not have time to do it. commissioner did not have time to do it. Upon this he commented at some length. In regard to the notes required by the guano dealers, Mr. Butt was very severe, reading several of them and commenting at length most their provisions.

Mr. Lewis—"Is there any law making a maning those notes?"

Mr. Butt—"There is a sort of moral duress.

Mr. Butt—"There is a sort of moral dures law that forces him to sign it," and he went on to explain that if the planter wanted the guano he was obliged to sign the note to get it.

OTHER DEALERS NOT PLACED ON THE SAME PLANE.

The speaker then instituted a comparison between the laws of Alabama and Georgia on this subject, how different they were in some respects. He also asked why guano was placed on a different footing from other commodities, like sugar, meat, and flour? He talked of the injustice of the business, and returned to the subject of the agricultural department long enough to say that he believed that Judy Henderson did his duty as well as he kne how, that it was not his fault, but was due the imperfect law regarding inspection guano. Mr. Davis explained the method of analysis. Showed how it was impossible for every ton to be inspected, and how unnecessary. There are only 486 brands used in the state, and it is necessary only to analyze here and there samples of each brand. The whole is made from the same formula, and the work of the chemist is

In regard to the strictures made upon the agricultural department, he declared that it was unfair to condenn it without it being heard in defense that if it needed investigation let a committee be appointed to investigate it. The question of the inefficiency, or efficiency, of that department, has nothing at all to do with the issue here.

ssue here.

The latter part of Mr. Davis's speech was in tended to show the injury the bill would do by withdrawing the guano notes from circulation. He took in substance the position that these notes being negotiable were like so much money in their section, and were traded for that to withdraw them would be like withdrawing so much money from circulation. That the effect of a contracted circulation was to cause things to go up in value, and from these general traths he deduced several strik-ing reasons why this bill should not pass. Mr. ROBERTS CONCLUDES THE DAY'S DEBATE.

Mr. Roberts, in opening, said that for ten cars this bill in some guise or other had been before the legislature. It had been here when men called it the "Miller bill," and it had been discussed under the name of the "Fort bill." It was no new measure, but was on the contrary a thing like Banquo's ghost, seemed would not down. Yet, notwithstanding its frequent and repeated appearance, it had been always and invariably defeated, and he hoped it would be so again.

THE BUIT'S AFFIDAVIT REBUTTED.

In regard to the effidavit read by Mr. Butt to the effect that Commissioner Henderson had replied to a request for an analysis of guano that he did not have time to attend to it. Mr. Roberts read the letter of Judge Henderson to the former, and in that letter it was stated that the state chemist was very busy just then making analyses and it could not be attended to just then, but as soon as it was possible he would see to it that the analysis was made and mailed to him.

Mr. Roberts continued by asking if the interasts of the guano men were so antagonistic to the farmers that in order to build up that of the farmer.

THAS NECKSSARY TO CRUSH OUT THE GUANO

Was the state to be made a kind of we were for the farmers, who had not demanded was the state to be unused for the farmers, who had not demanded, and who did not want such protection?

"This bill," continued Mr. Roberts, "ignores every law upon our statute books—it proposes to repeal the whole law of waiver. Ought this to be dean, did the gravity of the case demand the application of so desperate a remedy?"

Mr. Roberts upoke only a short while, but health a particulation of the that the senate would reabill.

While standing upon the sidewalk the two negroes fell out about a trivial matter and began to fight. Hall was too much for Sewell and was punishing him severely when the latter sprang back, drew a pistol, and fired. Two shots were the number, and with the second discharge Hall began yelling and dropped to the ground. The reports and the yells caused the crowd to scatter quickly and aroused people living in the neighborhood. Hall continued to yell and when aid reached him it was ascertained that a bullet had penetrated his right knee-cap, shattering it badly. cluding Sunday, until the gates of the exposi-tion will be opened to the public.

Yesterday afternoon, at the Piedmont exposition grounds, Mr. J. C. Peck, superintendent of construction, was presented with a fine gold-headed cane. The cane came as a testimonial from the workmen on the exposition buildings of the courtesy, kindness and fairness with which he has treated them from first to last. Mr. H. W. Grady presented the cane for the workmen in a short talk, in which he said that the most generous, liberal and significant help given the exposition from first to last was the donation of a day's work by each one of the workmen on the exposition buildings; that the board appreciated this more than any other gift that had been made, and would show their appreciation by having the subscribers as their guests on the first day of the exposition, the only guest of the exposition. He said further that it was a matter of peculiar gratication that although this work had been done in extraordinary time with not an hour to lose, that it had been carried through from beginning to end without a disarrangement or a strike, or a single word of complaint from the workmen, and that the directors found much pleasure in the last that the exposition had given work during the dull summer months to nearly a thousand men whe might otherwise have been idle. He complimented Mr. Peck in high terms and presented him with the cane,

Mr. Peck in high terms and presented him with the cane.

Mr. Peck replied in a sensible, practical speech, in which he said that although ninety-nine visitors out of every hundred who visited the grounds said it was impossible to get through in time, he had never had a workman to express the slightest doubt. Said he: "We cannot only get the present buildings ready, but if more are needed we can get them ready. With such men as I have about me on this work, from the humblest water carrier to my right hand man, Mr. Padgett, we can do anything that is required of us."

Baldwin County People Coming. Baldwin County People Coming.

MILLEDGEVILLE, Ga., September 2.—[Special.]—A delegation from this city will visit the Piedment exposition. Nearly every person questioned on the subject signifies an intention to go, and it is probable that more people from Baldwin county will visit the great show during those two weeks than have visited Atlanta during all the seven years since the cotton exposition. Baldwin delights in standing on the Piedmont escarpment once in a while, anyway.

All the military companies of Augusta have received invitations from Governor Gordon to attend the constitutional centennial at Philadelphia, but they have decided to refuse the trip, preferring a visit to Atlanta during the Piedmont fair. An Example Worth Following. From the Albany, Ga., News.

The Albany boys are too busy with 'he rapidly growing trade of the city to be running around after a baseball. Their employers can't spare them.

From the Gwinnett, Ga., Herald.

The reported capture of Jacob Pettyjohn brings to mind an incident connected with this noted case.

At the time Freeland was hung, as usual a large crowd of sight-seers went to Cumming to witness the death of this man. Among those who went over from here were W. L. Yaughan and Nunan Green, who was a Polish Jew, well known in this county.

After the condemned man was taken down these parties concluded to get part of the rope and bring it back, with them. They secured about three feet of the rope including the noose that had strangled its victim to death and the hangman's knot.

They returned that evening and hanging the rope up in the room retired to sleep after a long day's ride. Yaughan dropped to sleep at once, while Green, who was a nervous man, of an excitable temperament, rolled and tumbled. Every time he got into a doze he could see the death stuggtes of the old man, over in the corner of the room where that rope swung to a nail.

Starting up he would look around the room but everythe.

Starting up he would look around the room but everything was quiet and he would lie down again, reproaching himself for his cov-ardice, but no sooner would he go to sleep than this dreadful apparition would startle him again.

Along in the small hours of the morning he waked up his companion exclaiming: "Wils, wake up, I can't sleep with that old rope They got up and carried it out and locked the door, and then for first time "sleep came to his eyes and alumber to his eyelids."

Next morning that rope was carried to Dr. Russell's office where it hung for ten years.

THE BRADY BILL.

The Senate Still Hammering Away at the Guano Measure.

A VOTE PREVENTED BY FILIBUSTERING

The Result of the Discussion Yesterday in the Senate Upon the Brady Bill-

For three days has the Brady bill been be fore the senate, and yet the end of the discus-

aion is not at hand. Yesterday the opponents of the bill had magnificent opportunity of bringing the matter to a vote, and as one or two test votes indicated could have defeated the bill with ease but the other side, the friends of the measure practiced superior parliamentary tactics, and notwithstanding the previous question being called, succeeded in keeping the main ques-tion from being ordered, until the hour for adjournment arrived and the senate adjourned for the day.

WHAT IS LIKELY TO HAPPEN.

The consequence is that, while there is an adverse report by the committee upon the bill, and while the adoption of that report will be fatal to the measure, it is entirely within the bounds of probability that, owing to absentees bounds of probability that, owing to abscatees, the senate may disagree to the report of the committee. This can be done by a mere majority vote, and it is believed that if the occasion arises, will be practiced by the friends of the bill. While this disagreement, if successful, by no means indicates that the bill will be passed, for it requires a constitutional majority to pass it, it will give the friends of the measure a chance to amend the bill and in this way secure to it the votes of senators who have said that, with certain amendments, they will way secure to it the votes of senators who way said that, with certain amendments, they will

said that, with certain amendments, they will support the bill.

WHAT CAN BE DONE?

Whether this will done is contingent upon the number of senators present, and upon the vote on the question whether the main question shall now be put. If the senate orders the main question to be put the question will be upon the adoption of the adverse report, when the number of senators present will decide whether the bill is killed there or whether a further opportunity is given by amendment or recommitportunity is given by amendment or recommit-ment to perfect it. The constitutional major ment to perfect it. The constitutional major ity enters into no vote save upon its passage, and just now which side can muster the bare majority has the advantage.

MR. BUTT SUPPORTS THE BILL.

In BUTT SUPPORTS THE BILL.
Inmediately after the reading of the journal yesterday, Mr. Butt secured the floor. Mr.
Butt said that the question at issue was whether the farmers of the state should have a say so in the courts or not? So far as the bill perse is concerned. I cannot say that I favor it, but with certain amendments I do believe in it.

At present the state stands in the attitude of guaranteeing now what in any other transaction the seller invariably warrants. The old rule has been abrogated, and the state through

rule has been abrogated, and the state through its agricultural bureau

TANDS RESPONSIBLE FOR THE GUAÑO SOLD.

Mr. Butt then took up the report of the state chemist and showed by his own report that the number of analyses was ridiculously small compared with the quantity of fertilizer sold. Something like five hundred analyses for 166,000 tons of guano. He also criticized the reports of the inspectors of fertilizers, showing that the inspectors made from 150 to 250 samples of guano from quantities ranging from ten thousand to fifty thousand tons. He asked if that was protection to the farmer? If taking a small bottle here and there—in every two hundred tons, was faithful analysis or any protection to the farmers?

He commented upon the work of the chemist who was a professor at Athens. He asked how a man, who had his college duties to perform,

perform, could attend to the analysis of 166,000

of fertilizers. He could not do it, and there was no use in saying he could!

'He read an affidavit from a man in his section showing that he had sent a sample of guano to the commissioner with the request that it be analyzed, and that the reply was the commissioner did not have time to do it. Upon this he commented at some length. In regard to the notes required by the guano dealers, Mr. Butt was very severe, reading several of them and commenting at length upon their provisions.

upon their provisions.

Mr. Lewis—"Is there any law making a man Mr. Butt-"Is there any law making a man sign those notes?"

Mr. Butt-"There is a sort of moral duress law that forces him to sign it," and he went on to explain that if the planter wanted 'the guano he was obliged to sign the note to get it.

OTHER DEALERS NOT PLACED ON THE SAME

The speaker then instituted a comparison between the laws of Alabama and Georgia on this subject, how different they were in some respects. He also asked why guano was placed on a different footing from other commodities, like sugar, meat, and flour? He tal'ted of the injustice of the business, and returned to the abject of the agricultural department long enough to say that he believed that Judge
Henderson did his duty as well as he knew
how, that it was not his fault, but was due to
the imperfect law regarding inspection of
guano. Upon this law he was severe, and ad-

guano. Upon this law he was severe, and advocated an improvement on the system.

MR. DAVIS DEFENDS THE DEPAUTMENT.

Mr. Davis rose to reply to Mr. Bult, and at the outset stated that he was not the champion of the agricultural commissioner, but in regard

to the afficiavit read by Mr. Butt, he regretted that the letter written by the commissioner was not also in evidence.

Mr. Davis explained the method of analysis. Showed how it was impossible for every ton to be inspected, and how unnecessary. There are only 486 brands used in the state, and it is necessary only to analyze here and there examples. essary only to analyze here and there samples of each brand. The whole is made from the same formula, and the work of the chemist is to show by analysis which brand contains

THE INGREDIENTS NEEDED BY THE PLANTER Mr. Davis stated that the law did not antici pate anything like that required by the gentle-man who had preceded him. In regard to the man who had preceded him. In regard to the strictures made upon the agricultural department, he declared that it was unfair to condemn it without it being heard in defense; that if it needed investigation let a committee be appointed to investigate it. The question of the inefficiency, or efficiency, of that department, has nothing at all to do with the issue here.

Issue here.

The latter part of Mr. Davis's speech was intended to show the injury the bill would do by withdrawing the guano notes from circulation. He took in substance the position that these notes being negotiable were like so much money in their section, and were traded for that to withdraw them would be like withdrawing so much money from circulation. That the effect of a contracted circulation was to course thisses to contracted or the second from the se to cause things to go up in value, and from these general truths he deduced several strik-

to cause things to go up in value, and from these general truths he deduced several striking reasons why this bill should not pass.

MR. ROBERTS CONCLUDES THE DAY'S DEBATE.

Mr. Roberts, in opening, said that for ten gears this bill in some guise or other had been before the legislature. It had been here when men called it the "Miller bill," and it had been discussed under the name of the "Fort bill." It was no new measure, but was on the contrary a thing like Banquo's ghost, seemed would not down. Yet, notwithstanding its frequent and repeated appearance, it had been always and invariably defeated, and he looped it would be so again.

THE BUTT'S AFFIDAYIT REBUTTED.

In regard to the effidavit read by Mr. Butt to the effect that Commissioner Henderson had replied to a request for an analysis of guano that he did not have time to attend to it, Mr. Roberts read the letter of Judge Henderson to the former, and in that letter it was stated that the state chemist was very busy just then making analyses and it could not be attended to just then, but as soon as it was possible he would see to it that the analysis was bade and mailed to him.

Mr. Roberts continued by asking if the intersits of the guano men were so antagonistic to by farmers that in order to build up that of

THAS NECESSARY TO CRUSH OUT THE GUANO

Was the state to be made a kind of wet burse for the farmers, who had not demanded, and who did not want such protection?

"This bill," continued Mr. Roberts, "ignores every law upon our statute books—it proposes to repeal the whole law of waiver. Ought this to be done, did the gravity of the case demand the application of so desperate a remedy?"

Mr. Roberts spoke only a short while, but nade a strong appeal that the senate would rease to pass such a bill.

THE GOSSIP ABOUT THE MATTER.

"he matter will doubtless come up again to-

day, and a vote can be had under the previous question, which was placed in operation, when the senate adjourned. In all probability, how-ever, the senate will continue to discuss the matter again today.

The wound is a serious, but not dangerous one.

Hall and Sewell, with a dozen negroes, all about their age, were on a frolic, and about midnight stopped near the church, each to go to his home. While standing upon the sidewalk the two negroes fell out about a trivial matter and began to fight. Hall was too much for Sewell and was punishing him severely when the latter sprang back, drew a pistol, and fired. Two shots were the number, and with the second discharge Hall began yelling and dropped to the ground. The reports and the yells caused the crowd to scatter quickly and aroused people living in the neighborhood. Hall continued to yell and when aid reached him it was ascertained that a bullet had penetrated his right knee-cap, shattering it badly. He was unable to walk and was carried to 'Dr. Benson's drug store, where that gentleman examined and dressed the wound. In the negro's coat sleeve was found a hoic evidently made by the first ball. The doctor thinks the wound serious but not dangerous. [Sevell left the locality hurriedly and has not been found yet.

The cane came as a testimonial from the workmen on the exposition buildings of the courtesy, kindness and fairness with which he has treated them from first to last. Mr. H. W. Grady presented the cane for the workmen in a short talk, in which he said that the most generous, liberal and significant help given the exposition from first to last was the donation of a day's work by each one of the workmen on the exposition buildings; that the board appreciated this more than any other gift that had been made and would show their appreciation by having the subscribers as their guests on the first day of the exposition, the only guest of the exposition. He said further that it was a mairer of peculiar gratification that although this work had been come in extraordinary time with not an hour to less, that it had been carried through from beginning to end without a disarrangement or a stilk, or a single work of complaint from the workmen, and that the directors found much pleasure in the fact that the exposition had given work during the dull summer months to nearly a thousand men who might otherwise have been idle. He complimented Mr. Peck in high terms and presented him with the cane.

Mr. Peck in high terms and presented him with the cane,
Mr. Peck replied in a scusible, practical speech, in which he said that although ninety-nine visitors out of every hundred who visited the grounds said it was impossible to get through in time, he had never had a workman to express the slightest doubt. Said he: "We can not only get the present buildings, ready, but if more are needed we can get them ready. With such men as I have about me on this work, from the humblest water carrier to my right hand man, Mr. Padgett, we can do anything that is required of us."

From the Gwinnett, Ga., Herald.

The reported capture of Jacob Pettyjohn brings to mind an incident connected with this noted case.

At the time Freeland was hung, as usual a large crowd of sight-seers went to Cumming to witness the death of this man. Among those who went over from here were W. L. Vaughan and Numan Green, who was a Polish Jew, well known in this county.

After the condemned man was taken down these parties concluded to get part of the rope and bring it back with them. They secured about three feet of the rope including the noose that had strangled its victim to death and the hangman's knot.

They returned that evening and hanging the rope up in the room retired to elsep after a long day's ride. Yaughan dropped to sleep at once, while Green, who was a nervous man, of an excitable temperament, rolled and tumbled. Every time he got into a doze he could see the death stuggles of the old man, over in the corner of the room where that rope swung to a nail.

Starting up he would look around the room but everything was quiet and he would lie down again, reproaching himself for his cow-ardice, but no somer would he go to sleep than this dreadful apparition would startle him

Along in the small hours of the morning he waked up his companion exclaiming: "Wils, wake up, I can't sleep with that old rope wake up, I can't sleep with that out tope hanging in this room?"

They got up and carried it out and locked the door, and then for a first time "sleep came to his eyes and slumber to his eyelids."

Next morning that rope was carried to Dr. Russell's office where it hung for ten years.

NEW YORK STOCKS.

Stocks as Reported at the New York Stock Exchange.

New York, September 2,-The stock market was somewhat feverish today in consequence of the effort of the bears, chiefly in the forenoon, to check the advance. The bulls late in the day gave several stocks a sharp twist and the market recovered its decidedly firm tone. London became a buyer and purchasers were stimulated by the rumors that a prominent banking house as well as several influential operators were acquiring large lines of stocks. The impression that the Baltimore and Ohio deal is close to the final settlement also induced a large proportion of buying. Considerable pressure was brought against Western Union, Missouri Pacific and New England in the early dealings, and the latter stock was sluggish all day long. Others, how-ever, with Mauhattau, Reading and Richmond and West Point were specially strong toward the close. Advices from Philadelphia of the intention of trustees to pay back interest on the Consolidated Improvements and that they had modified the plan of reorganization of Susquehanna Canal which would insure the deposit of stock, aided the advance in Reading very materially. There was heavy realiza-tion, but the fresh buying robbed it of its effect. The total business is 357,000 shares.

Exchange dull but steady at 481 2@485. Money act ive at 5@8, closing at 6@7. Subtreasury balances; Coin 185,092,009; currency, \$13,427,000. Governments dull but steady to firm; 4s 125%; 4½ 108%. State bonds dull and featureless.

NEW YORK, September 2-C. L. Green & Co., in their report on cotton futures today, say: The cost has averaged somewhat higher on cotton futures, but the tone was not so strong as yesterday, and the advance could not be sustained. Evidences of outside buying continue, but the demand was, in the main, from the shorts, and the sharpest on near op-tions. This latter feature may be attributed to the scarcity of actual cotton and continued latent feeling of apprehension regarding the deal for the cur-rent month, the later months obtaining buoyance mainly on crop advices. During the afternoon, however, the feeling became slack, and about all the gain disappeared under more cheerful reports of crop conditions and very full receipts shown at the interior towns. Outside orders are not quite so plenty today. The final rates were only 1@2 points above ast evening, and trading light.

NEW YORK, September 2—[Special.]—From Hubbard, Price & Co., through John S. Ernest: The market has been under the influence of bad crop accounts and we have made extended telegraphic inquiry to ascertain if the reports were well founded. The replies are varied, but convey the impression that the estimates of damage in the various districts have been too high. The recent sensational advice from Memphis is only partially credited. al advice from Memphis is only partially credited. Texas is believed to promise a crop of one and one-half million bales, the Carolinas report is unchanged, prospects of a full field, and from Georgia, a good picking season will counterbalance all damage from shedding and rust. New Orleans' estimates of the crops are now from six and three-quarters to seven million bales. The buying and advance in our market was due to the belief in the considerable extent of the damage, but the more reassuring tone of the later dispatches somewhat allayed the fear, and the advance was not held. The large port and interior receipts, especially at Selma, Montgomery and Eufaula, aiding in the decline. September con-tracts are now at a figure which will probably brirg all southern cotton which cannot make the Septem-ber delivery in Liverpool here for tenier and the existing nemium on that month cannot be read. ber delivery in Ilverpool here for ten ler and the existing premium on that month cannot be maintained if the shipments here should be liberal; the sale of Septemeer and the purchase of January would seem, on this assumption, a judicious straddle for those who believe that the present prices of the late month; are too low. New cotton is showing great loss in weights, one lot, in our experience, losing two of our shipments to New York and we advise great caution on this point by shippers.

THE CHICAGO MARKET. Features of the Speculative Movement in Grain and Produce.

Special to The Constitution.
CHICAGO, September 2—There was a bullish feeling in the wheat market at the opening today but it was largely a continuance of the tone established in the afternoon session yesterday and did not last long. There were, evidently, too many longs who were anxious to take profits, however small, and when these parties began to realize the narket weakened from lack of outside support. The influence which may have induced the selling was the falling off in the export movement and the increased receipts in the northwest. The receipts here were also slightly larger than was expected and the estimates for tomorrow are larger. A moderate ship-ping inquiry existed, but late cables reported prices firm but the demand was less urgent. October wheat opened at about 1/c better at 71%c, sold down to 70%, up again to 71% and back to 70%, and closed

Corn was rather quiet today with trading somewhat limited and the feeling easier. There was a fair demand from shorts for September, early and prominent local operators bought quite freely. The market opened about the same as the closing prices of yesterday, and was steady for a time under mode erate offerings, then ruled weaker, when it became known that 530,000 bushels were expected tomorrow values declined a ½ to ½c, ruled quiet and closed ¼ to ½c lower than yesterday. October opened at 45½c and closed at 41½c: May sold from 45¼ down to 45½c, then broke to 45½ and closed at

45½ to 45½c.
Oats were more active than yesterday, selling higher early and lower at the close. October open ed at 25% and closed at 25c; May sold at 30% and 30%c, closing at that figure.

Provisions were fairly active, particularly short ribs, which were decidedly stronger and higher. The stocks here showed more of a reduction than The stocks here showed more of a reduction than was anticipated, as it was generally expected that there would be at least 2,500,000 pounds, but the report only shows in round numbers 23,900,000 pounds, an increase of nearly 16,000,000 pounds during August. Holders were distinctined to sell, and shorts anxious to buy and prices advanced 17½ to 20c and closed at nearly the top figures. The shipping demand were full and Armone sells and these services and armone sells and the services and the sells are sells and the services and the sells are sells are sells and the sells are sells are sells are sells are sells and the sells are s mand was fair and Armour sold 1,000,000 pounds for cash in lots at 8.30. September opened at 8.40 and sold at 8.25 to 8.40 and closed at 8.373/2; January was

neglected and sold at 6.45.

Lard was offered more freely and prices declined 2½c. September sold at 6.45 to 6.55, closing at 6.47½; January at 6.42½ to 6.60 and closed at 6.67½. Mess pork was slow at 12.47½ to 12.55 and closed at 12.50 for January.

The Departments are well night full, and an early pplication is important to secure a good place for application is important to secure a good place for the next term.

Our object is to meet, as far as practicable, a long felt want in the South, viz: a thorough literary and practical business education for females.

Every member of our faculty is an experienced educator. All are acknowledged to stand abreast with the best teachers of the State, in their respective de-partments, while some enjoy even a national repu-tation. Anyone having girls to educate is respectfully re-ferred to the State at large for character, scholarship and management.

NEW FRATUERS.

With a view to making our course of study eminently practical. Telegraphy, Calligraphy, Phonography, Book keeping, Type-setting, or Journalism will be introduced asseparate departments. A graduate of this school takes along with her a profession adapted to her sex, and which fits her to enter at once upon an active business life. In no other school in the South will she find these advantages.

A few months ago Parker began to tire of hotel work and came back to Atlanta. During his absence from the city Bishop Turner had begun publishing a church paper, and with the paper Parker formed a connection as business manager. He was always a good worker, and from his white friends he secured considerable patronage. After working the city pretty thoroughly, Parker thought he would try Chattanooga, and as business manager of the paper secured an annual pass over the State road. and a short time ago a son of the bishop was made business manager. One of the first things the new business manager did was to apply to Senator Brown for a pass over the Western and Atlantic road. The senator roplied to the letter by telling the bishop that one pass had been issued to Parker as business manager of the paper. The bishop then asked that the pass given Parker be cancelled and another issued his son. Senator Brown fissued the pass, and after writing to Parker for the one he held, issued orders to the conductors to TAKE UP THE PASS

when presented. On Tuesday last Parker was in Dalton, and when Conductor Bell's train reached that place, got on. As Conductor Bell went through the train he came upon the pass and at once telegraphed to the general office in this city. There he addressed the cook, saying:
"I want something to eat, and I want it sent in there where those people are eating."

The cook did not talk kindly to Parker and warm words ensued. The quarrel was heard in the house, and when Mr. Whitsett heard what it was he picked up a double barrel shot gun, and walking into the kitchen, gave Parker a lecture. Then he turned to him, saying:
"You are going to eat right here in the kitchen and I ain't going to charge you for the meal. Now, eat, or I'll put daylight through you!"

Mr. Whitsett spoke like he meant what he aid, and Parker was satisfied that he did mean it. He was hungry, too, and thinking grub as good in a kitchen as a dining room, dropped into a chair and ate. After the meal was over Parker left the hotel, and on the lacet train went to Chattanooga, where he placed the case in the hands of attorneys.

The road was yesterday notified of the contemplated suit.

He Goes to a Hotel. A lively and sensational damage suit against the Western and Atlantic railroad, in which Jim Parker, the tall, well known, yellow negro, is the plaintiff, is now being prepared by Chattanooga lawyers, but just when the papers

will be filed is as yet unknown.

Parker was put off a passenger train Tuesday night, and that is the cause of the suit. No negro in Atlanta is more extensively

known than Parker. His tall, slim, angular frame has been seen in all sections of the city, and whenever seen is remembered. Where he came from no one knows, but that he came from somewhere no one doubts.

Power IN MUNICIPAL ELECTIONS.

No negro could control more votes than
Parker and no one could vote his race more Parker and no one could vote his race more blindly and rapidly than he. This, of course, made his services in demand, and in every election he figured prominently. In city politics he was always for the winning man, but in national issues he invariably sided with the republican party, and as a recognition of his services he was given a mail carrier's position during the last days of the republican regime.

After Cleveland came into office and Colonel Renfree had succeeded Mr. Wilson in the postoffice, Parker was asked to drop his position so that a democrat could draw his pay. The tall negro was stuck on the job, but was philosopher enough to quit when told to do so.

After the election Parker rejoiced as much as any one at the prohibition victory and at once began laying his plans for a position under the new administration. "Then you'll have to go to the kitchen and
order it," said the clerk.
The gentleman spoke in a most positive manner, and Parker observing this, arose and

went to the kitchen.
There he addressed the cook, saying:
"I want something to eat, and I want it sent in there where those people are eating."
The cook did not talk kindly to Parker and warm words ensued. The quarrel was heard in the house, and when Mr. Whitsett heard

what it was he picked up a double barrel shot gun, and walking into the kitchen, gave Par-ker a lecture. Then he turned to him, saying:

ker a lecture. Then he turned to him, saying:
"You are going to eat right here in the
kitchen and I ain't going to charge you for
the meal. Now, eat, or I'll put daylight
through you!"

Mr. Whitsett spoke like he meant what he
said, and Parker was satisfied that he did
mean it. He was hungry, too, and thinking
grub as good in a kitchen as a dining room,
dropped into a chair and ate. After the meal
was over Parker left the hotel, and on the
mext train went to Chattanooga, where he
placed the case in the hands of attorneys.

The road was yesterday notified of the contemplated suit.

THE GUARD WILL GO.

The Trip to the Constitutional Centennial Assured.

The Gate Cate Guard held a short meeting trip to Philadelphia. The members, without exception, are anxious to make the visit, and it is

bettled that they will go.
Captain Anderson said to a reporter yesterday afternoon: "We are all carnest in our intention to go to Philadelphia. With only three exceptions e men can get off. We will probably carry ty-six members. It will be a most enjoyable and we look forward to it with interest."

THE MISSING HEIRESS.

The Negro Girl Falls to Turn Up and the Ne gro is Released. Fannie Maddox, the missing heiress with a dark skin, is still missing and the mystery which surrounds the affair is increasing and

dark skin, is still missing and the mystery which surrounds the affair is increasing and growing deeper.

Sam Johnson has, however, been released. Early yesterday morning Chief of Police Connolly gave the case an investigation, and after acquiring all the facts which the officers had gathered, became deeply interested and detailed an officer to make a thorough and diligent search for the girl. Patrelman Hadly was assigned to the work. He first went to the cell in which Johnson was confined and had a long talk with him. The old negro repeated the story which he told when first arrested, and of course the officer was unable to secure any clue to the girl. After a long talk with Johnson, the officer went to the house where the child had lived. Johnson lives in the house now, and unless the child turns up will own all the lawyers leave for him. In the neighborhood the officer ascertained that the old woman had openly shown her will in which the child had been mamed as her heiress. Every one about the house told the officer of the great love which the old woman always manifested for the child and of the unfriendly feeling exhibited by Johnson to the child.

"Why," said one old negress, "that Sam Lebusy was a still said and the table."

and of the unfriendly feeling exhibited by Johnson to the child.

"Why," said one old negress, "that Sam Johnson was awful jealous of that child, and was always telling the old woman something that wasn't true. Just before the old woman died he took the girl into the yard, and telling her that he was going up town, said that if she was there when he came back he'd kill her. The child was afraid of him, too."

The officer had no trouble in tracing the child from the time her father brought her to Atlanta up to the old woman's death. On that day the child was about the house, but on the day the old woman died the child was not seen. Since then no case remembers to have seen it. Johnson admin that the child was at the house while the old woman was sick, but says that she went away without telling any says that she went away without telling any one, and that he does not know where she went or when she went. The negroes in the neighborhood all say that they believe Johnson sent the child away, and some are so charitable as to assert that he has put her out of the way, but there is not a particle of evidence to sustain either reterment. to sustain either statement

After Patrolman Hadley had gone through the matter carefully he reported the result to the chief. Soon after the report was made Captain Milledge, who is Johnson's legal ad-viser, had him taken before Judge Tanner for a prelimitary trial. The evidence failed to show that the missing child had been kidnap-ped and the old negro was released.

A CLEAR WATER BASIN. The Work of Rebuilding Begun-The Water

Commissioner Prints a Card. The breaking of the clear water basin at the waterworks day before yesterday is universally regretted because it delays the supply of clear water which Atlantians have been wanting so

water which Atlantians have been wanting so long.

Early yesterday morning the contractors began clearing away the debris and preparing to rebuild the broken walls. The work will be slow and in all probability will not be under good headway before the middle of next week. Some change will be made in the nature of the structure this time so that the walls will be strong enough to support the weight against them. The cause support the weight against them. The cause of the accident is unknown, but it is believed that it was the weight of the water which caused the walls to give way. A law suit may ensue between the contractors and the city and it may not. The water commission in a card printed herewith claim that the loss falls upon the contractors because the work had not been surrendered to the city. It is understood, however, but not positively known that the contractors will claim that that part of the work had been completed and was under charge of the commission. The contractors, superintendent was present when the basin that it was the weight of the water which superintendent was present when the basin was filled. The con ssion furnishes the fol-

EDITORS CONSTITUTION: The atricle in your morning issue "The Basin Gives Way" contains several errors. The accident does not entail any loss to the city. The contract with the Hyatt Filter company requires the entire work to be completed satisfactorily and turned over to the city before they are entitled to a dollar. No part of the work has been received or turned over. The commissioners did not go out to the works yesterday, nor did they decline to estimate the loss sustained. They only regret the accident because of the loss to the contractors, and the delay in filtering the water, which need not be put off till the 1st of January. The president, E. E. Rawson, is absent from the city.

Respectfully,

G. W. Adark, Commissioner,

that there cannot be a repetition of the fire which swept away everything in a few hours. As soon as the factory is completed a full force of glassblowers will be put to work.

The company is not discouraged. It will hasten to fill the \$50,000 worth of orders which it now has in hand.

Many of the glassblowers who came here from Brilliant, O., are still here. They have received situations and have been aided by the company in many ways. Some of them went back home, but their places can be easily supplied.

when completed the new glass works will be as well equipped as any similar concern in the United States.

from Atlanta to Philadelphia during the centennial celebration. A great many Atlantians contemplate making the trip. Mr. James M. McMaster, formerly of Columbia, S. C., but now one of the most successful young railway lawyers in Birmingham, Ala., spent yester-day in Atlanta. He has been visiting his family in

South Carolina.

Mr. Mike Powers, of Albany, was in The
Constitution office yesterday, exhibiting a new car
compler which he has lately patented. It is to be
tried on several southern roads. Mr. Powers is also the inventor of the railway bicycle, which is now so much used. He has determined to make his home in Paterson, N. J., and will start for that city

The Signs of the Times. Tomorrow morning Rev. Thomas M. Harris, paster of liunter street Christian church, will deliver an interesting discourse upon "The Signs of the Times." The scope of the discourse will cover the second coming of Christ, the millennium and the signs of the times as to when the coming will be. Mr. Harris has been preaching an able and interesting series of sermons for several weeks past, and tomorrow's disc use will be a very fine ethert. The public are cordially invited. What Was Done in the Departments Yesterday.

THE LIST OF THE NEXT GRAND JURY. News of Interest Connected With the State House Departments and the Various Courts Reported.

GOVERNOR GORDON signed three or four bills yesterday and received a large number of visi-tors. The agricultural department presents some interesting news about the crops, and

below will be found the list of the next grand jury for the superior court. The Governor and His Cabinet. GOVERNOR GORDON received on yesterday a

large number of callers, and he had very little time to devote to the consideration of matters that required long, careful, and deliberate at-tention. Notwithstanding much of his time was occupied with visitors, he succeeded in getting through with considerable business. He will today in all probability issue an order in a pardon case, and would have done so yesterday had the papers been prepared. The facts in the matter were not made known to the press, and will not be given out until the pardon order is made.

TREASURER HARDENTS on yesterday paid the following executive warrants; \$500 on account public building fund to J. M. Kell; \$250 on account of state chemist, to H. C. White: \$150 to the technological school commission, on account of architect. The Western and Atlantic railroad company on the 30th ultimo paid the sum of \$25,000 thio the treasury, the same being the monthly rental of the road. The money goes to the public school fund of the state.

COMPTROLLER-GENERAL WRIGHT has spent COMPTROLLER-GENERAL WRIGHT has spent the last two days in Fatonton attending a re-union of his old regiment. The comptroller was expected home last night, and will, in all probability, be in his office today. The fenitentary department reports matters quiet at the various camps. The two convicts in attendance upon the court at which the contract of the lessees is being considered, on Thursday, were sent to the brickyard camp, where they will remain until they are wanted by the governor. The camp at Bingham's will probably be broken up on Tuesday, as the work there is about completed. Dr. Houk, now physician at the Augusta and Chattanooga camp, was in the city yesterday, and reports matters in good shape there. Dr. Houk will also be a winess before the governor at the official inquiry on the 8th of September.

The Agricultural department compiled the crop reports of its correspondents yesterday, and the following is given as the average condition and prospects of crops for the state: September 1st, cotton 82; corn 97; rice 88; sugar came 96; sweet potatoes 97: tobacco 74; number stock hogs as compared with last year 90; condition of hogs 98.

CATERPILIARS ARE REFORTED as having made their appearance in all sections of the state, being noticed in north Georgia August 20th; southwest Georgia July 1st to August 16th; east Georgia August 20th Complaints of rust and shedding as a result of the excessive rains of the latter part of July and early part of August are general. The weather has been favorable for picking, and the work of gathering the cotton crop is being pushed.

Executive visitors were numerous yesterday. Among those who called were Senator R. H. Powell, Barnesville; A. D. Williams, Wm. Wells, A. C. Bruce, Messrs. J. M. Terrell and W. F. Gary, of Meriwether county, members of the house. A large delegation from Lee county arrived yesterday for the purpose of urging the passage of the stock law bill for that county upon the legislature; the delegation called upon the governor in the afternoon to pay its respects, two colored men being members: they were J. Don't Laugh at Nervous People. Their sufferings are very real, although you, with your vigorous physique and strong nerves, can scarcely believe it. Rather suggest the use of Hostetter's Stomach Bitters which, in removing every trace of dyspepsia, and regulating the liver and bowels, strikes at and extirpates the most prolific cause of chronic nervous trouble. That nerve-shattering disease, fever and ague, is among the formidable ailments, to the removal of which this genial rem, edy is specially adapted. Nervous prostration resulting from prolonged mental or physical effort, is also a state of the system where the intervention of this tonic is very desirable, more particularly as its use is to quiet and re-lax the tension of overwrought nerves. LUMPKIN LEAVES

The Race to Simmons, Clarke and Hook.

SPECULATION AS TO THE RESULT,

The Exciting Canvass Going on for th Seat on the Supreme Court Bench.

"Judge Lumpkin is out of the race!" Such was the sensational rumor that was prevalent about the hotel lobbies last night, and upon investigation it was found to be true that Judge Sam Lumpkin, of the Northern circuit, had withdrawn from the canvass for Judge Hall's old place.

NO REASONS FOR THE WITHDRAWAL. No reason was assigned for the withdrawal. Judge Lumpkin was gathering friends and supporters every day and was one of the most popular men in the field. No man ever had warmer or stauncher friends, and from every county in his section friends had come to Atlanta to assist him in the race.

A young man, in the very prime of an ac-tive and rising career, whatever caused his re-tirement, he can very well afford to wait for tirement, he can very well afford to wait for higher judicial preferment. The judge of one of the most important circuits in the state, he is making every day a reputation for judicial fairness and honesty, as well as legal learning and attainment, that is almost certain, some day or other, to advance him higher in the profession.

WHAT EFFECT WILL IT HAVE?

It is impossible to say what effect Judge
Lumpkin's retirement will have upon the
strength of the three remaining candidates. No strength of the three remaining candidates. No one seems to know what the result will be. Judge Simmons's friends claim for him something like 80 votes, solid and sure; and Judge Clarke's friends are just as certain as they can be that their candidate will get at least 80, if not many more, on the first ballot. Judge Hook's friends declare that he has between forty and fifty votes solid for him. Taking these estimates as the basis of the first ballot, all the votes are accounted for save about nine, but these nine, go they to whoever they will, will not place the judicial robe upon any candidate's shoulders.

didate's shoulders.

If the list of the more enthusiastic supporters of the various candidates are taken, and the votes they give their men are added, it will be seen that the sum total will far exceed

will be seen that the sum total will far exceed the number of votes to be polled, and so that calculation is not convincing. The truth of the matter is that the thing is so mixed that it will take a ballot to decide.

One member said last night that he "was positively pledged to three men, and he knew about as many men as it was comfortable to know in the same fix." He felt really un-comfortable about the matter, and talked of going home.

comfortable about the matter, and talked of going home.

The Brown-Simmons conference denied.

On Thursday The Constitution printed a rumor that the retirement of Judge Brown in Judge Simmons's favor was the result of a conference between those gentlemen. This rumor is positively denied. It is held that at the time the supposed conference took place, Judge Simmons was in New York, and could not possibly have been with Judge Brown.

The views of A well known politician said last night that two ballots would decide the matter, and that the third ballot would elect. Holding high office he refused to express himself as to the lucky candidate, declaring that he was out of the fight and did not care a thrip who got it. Nevertheless he said he knew who would.

THE MANNER OF THE CANVASS.

It has been the subject of general comment that the reason in Constitution.

THE MANNER OF THE CANVASS.

It has been the subject of general comment that no race in Georgia was ever conducted upon a higher and more gentlemanly plane. The best sort of feeling has prevailed among the candidates and their friends, and not the least unpleasantness has existed or resulted from the canvass thus far. An old stager remarked last night that he "did not know a race could be recked in such a war, and was marked last night that he "did not know a race could be worked in such a way, and was glad to see, that for the high office and responsible position, the candidates were determined not to let political filth soil their garments."

The friends of the various candidates, Judge Hook, Judge Simmons, and Judge Clarke, are all confident and predict the election of their man.

tained a large and appreciative audience.

It was an ambitious, perhaps audacious undertaking for Scott Thornton and his company to essay the rendition of Tom Taylor's great play "The Fool's Revenge," a piece that tax 8 the histrionic capabilities of the most experienced and efficient players. The experiment proved a notable success. Scott Thornton assumed the role of "Bertuccio.' His conception of the part was good; his execution admirable. His acting last night, taken all in all, was far superior to anything he has ever done in Atlanta. He was not once guyed, but repeatedly he was the recipient of generous and genuine applause. In the audience there were many intelligent critics, who seemed well pleased with Scott's action.

Miss Josephine Delizin made her debut before an Atlanta audience. It was easily seen, however, that she was no tyro. She is pretty, graceful and vivacious. Her rendition of the part of "Fordelisa" was painstaking, and she showed that she had thoroughly mastered its details. The audience gave her unstinted applause.

Mrs. Eliza Mohr. the distinguished elocutionist'

was panisaria, and see showe that she had thoroughly mastered its details. The audience gave her unstinted applause.

Mrs. Eliza Mohr, the distinguished elocutionist' essayed the difficult character of "Francesca Bentivoglio," and she acquitted herself most creditably. As she came upon the stage, dressed in a forming robe of black velvet, she present da queenly appearance. Her very presence elicited applause before she uttered a word. She spoke her lines in clear, liquid tones and her gestures were graceful and effective. Her acting was duly appreciated, for the audience bestowed upon her liberal applause.

Mr. George O'Brien left a sick bed to fulfillhis engagement. He was in no physical condition to appear before the footlights, but the most critical observer could not detect any shortcoming in his way of rendering the part of "Galeotto." Mr. O'Brien is a natural born actor and has a bright future before him.

him.

The minor parts were admirably sustained, and the entire play was given without hitch or mishap. It was assuredly one of the most enjoyable dramatic performances ever given in Atlanta by a home company.

This afternoon at 2:30 there will be a matinee and the "Fool's Revenge" will be repeated.

A MONKEY AND PARROT TIME.

The Police Court Room a Lively and Inter-

The Police Court Room a Lively and Intercising Pince Yesterday Morning.

Hamp Stroud, the Markham house wine-room man, was arraigned in police court yesterday morning, charged with violating the prohibition law, and during the trial some lively scenes were presented to those in and about the courtroom.

The city opened the case with a witness, whose testimony was not at all damaging to the defendant. Another and another witness followed with the same story, and then Henry Hetzell was introduced, and, in reply to questions, said that he had bought intoxicating drinks in the wine-room. The witnesses' story was conclusive, and with the case well made out, Judge Pendleton closed for the city.

Colonel [Arnold, representing Mr. Stroud, realized that he had a bad case, unless Hetzel's testimony could be broken down. There was but one way to impair his declaration, and that was to impeach him. Witnesses were introduced who did not speak in the most complimentary terms of Hetzell, and among the number was Mr. Dooly the bill poster. In reply to a question the witness said:

"No, I would not believe him on oath. He told me that he intended to give the wine rooms away because Reeves and other detectives would pay him to do so."

This, of course, put a doubtful construction upon Mr. Hetzell's testimony, and with a view to destroying his statement entirely, Colonel Arnold called Mr. Hetzell back 'upon the stand, asking him if he had told Mr. Dooly that he intended to give the wine rooms away "T did not," said the witness, in a positive, sharp and emphatic manner.

"Yes, but you did," said Mr. Dooly, quite excitedly, leaping to his feet.

"Dooly, I did not," replied Mr. Hetzell quife warmly, "and you know you have sworn to two lies in this case already."

"You are a liar yourself and I'll punch your head it you tell me I lie," said Dooly, leaping forward.

Several policemen sitting near sprang up. Some grabbed Mr. Dooly, and some caught

head it you tell me I lie," said Dooly, leaping forward.

Several policemen sitting near sprang up. Some grabbed Mr. Dooly, and some caught Mr. Hetzell, preventing them from coming together. The scene for a minute was an exciting one, and the loud, repeated raps for order had no effect. People in the rear of the courtroom climbed upon the benches to see the racket. Finally, however, order was restored, and Judge Anderson said:

"Don't let this thing happen again, gentlemen, or I may take a hand in it next time."

Colonel Arnold having concluded with Mr. Hetzel, that gentleman introduced several persons who swore that they believed his word worthy of credence. Mr. Hetzell then asked the court to continue the case until this morning so that he could introduce witnesses as to his character for truth. Judge Pendleton indorsed the request, saying:

"I am certain that the gentleman can introduce hundreds of witnesses who will swear that he will tell the truth."

"And I would like to say," said Mr. Dooly, arising as Judge Pendleton sat down, "that I have no ill feeling towards Mr. Hetzell. I have only told what I heard him say. If he is not satisfied with that, and wants satisfaction, I'll give it to him outside the courtroom. I'll punch him in the jaw."

Mr. Dooly spoke warmly, and as he warmed up Judge Anderson began to get warm. By

Mr. Dooly spoke warmly, and as he warmed up Judge Anderson began to get warm. By the time Mr. Dooly was through with his oration Judge Anderson was quite hot, and said:
"You can just hand over a ten, Mr. Dooly, for contempt to court. And I'll take this occasion to say, you can't put a head on any witness in this court."

The judge then continued the case until this morning, and the crowd left the courtroom in

Charles Weldon, the negro man who was arrested day before yesterday by Captain Ed Cox at Judge Palmer's Edgewood home, appears to have been a prominent figure in the Decatur riot from its inception to the end.

When Captain Cox first heard of Weldon's participancy in the riot he was told that he had taken a most active and zealous part both in the rescue of Hubert from the officers at the tabernacle and the subsequent shooting in the cut. Weldon's conduct at the time of his arrest and while on the way to the city was not calculated to drabuse the minds of the arresting posse, and no attention was paid to his repeated demands of the charge made against him: On yesterday morning when Captain Cox came to the city he was accompanied by Bailiff Rodgers, who, the instant he laid his eyes upon Weldon, recognized him as the negro who had knocked the handcuffs off Hubert when he was taken from the officers at the

In a short time Whitney induced the woman to leave Carter and went to another camp. Carter followed the pair, and when he came upon them Whitney declined to give her up. A quarrel ensued, and Carter shot Whitney, the ball entering under the left eye, causing instant death. After the shooting Carter, came back to Atlanta and for the past eight months has been working for Bob Stevens. Some time ago Call Officer Green succeeded in locating him and yesterday morning with Detective Bedford went to Stevens's place and arrested him. Conductor Patterson, well known along the line of the Georgia Pacific railroad as one of the most reliable and attentive passenger con-ductors in the service, had a thrilling and in-teresting encounter with an escaped convict

A NATURAL BORN DETECTIVE, and he at once began watching every negro who entered his train. Day before yesterday, when the conductor left Atlanta, he had several negroes about and gave each one a careful examination, but cope of them corresponded with the convict for whom he was looking. At a station this side of Anniston, however, two negroes boarded the train and at a glance the conductor detected a resemblance one of them bore to the description. He had the paper with him, and without attracting the attention of the negro, drew it out and made a comparison. The convict was described as forty years of age. The passenger was about that old. The convict was a ginger cake color, so was the passenger. The convict weighed one hundred and eighty pounds, and so did the passenger apparently. The convict was five feet eight inches tall, and the passenger was near that size.

"I have an escaped convict on my train for whom there is a hundred dollars reward. Do you want him?"

"Of course I do. Where is he?"

The officer was a very small man, half the size of the convict probably, but with the apparent bravery of a regiment he climbed into the train behind the conductor. Conductor Patterson led the way into the car up to the seat where the negro was sitting. Beside the negro he stopped, and when the officer came up he said:
"This is the man."

Then laying a hand upon the negro's shoul-

It was only a step or two to the door, and as he reached it the negro sprang off the platform, and, with pistols in hand, ran for the woods. He was as swift as he was desperate, and by the time the officer recovered from his surprise and staited in the race the negro was nearly out of sight. The entire affair occupied but a few minutes, and attracted so little attention that no one knew anything of it until it was over. A pulsuif was organized by the officer after the train left the station, but the negro could not be found.

Conductor Patterson reported the affair at police headquarters yesterday when he came in, and is confident that the negro was Matthews.
